

Front End Web Developer Front End Web Developer Front End Developer Boston, MA I'm a front end developer with 3 years of professional experience. I am a graduate of Capella and Udacity front end certification programs. I specialize in front end technologies such as Javascript, HTML5, CSS3, JQuery, AngularJS, Angular and JQuery Work Experience Front End Web Developer NubApp - Pamplona, Navarra provincia January 2019 to May 2019 ? Created the activity scheduling interface used for all facilities in each of our clients sport centers. ? Developed and improved over 10 interfaces used by administrators and clients. ? Created the interface used frequently by administrators to edit information regarding membership fees. Front- End Web Developer Spendology - Denver, CO June 2015 to December 2018 Converted design mockups and directions from the team to create finished code that exceeded expectations. ? Efficiently built-out feature rich apps, while staying cohesive with each project's design direction. ? Utilized a development workflow and technologies that dramatically decreased project completion time. Front- End Nanodegree Guide Mountain View, CA August 2015 to November 2015 Provided technical/coding support and motivation to teams of 7-10 students ? Guided students with examples and resources to help them through challenging concepts. ? Received student feedback, noting how I had helped them grasp development concepts.
