programmer Peoples Credit March 2011 to 2016
working with internal and external facing web applications and web sites for the company. Working with CF 7/8/9, open CFML in the OpenBD (Blue Dragon) and Railo environment, MS SQL, DHTML, Javascript, jQuery, XML, GIS, PHP, JSON, REST, SOAP, multiple vendor API's, RWD (Responsive Web Design), and AJAX. Tools used for this position include GIMP, Inkscape, CF 7/8/9, Open CFML, SQL 2000, and Selenium. The company shut down in the beginning of 2015, remaining to finish out current contracts. No longer buying contracts but handling standard day to day business. The intranet and web applications were still needed on a daily basis. As of the beginning of 2016 the company closed out its last contract and officially shut down as a business. During this time period the site code remained bullet-proof; there were no issues during that time period, and I merely reviewed logs for any unusual server activity on a weekly basis.

programmer TEK Systems February 2010 to February 2011 within the MarCom group working with internal and external facing web applications and web sites for the company. Working with Coldfusion and MSSQL, DHTML, Javascript, jQuery, and AJAX. Tools used for this position include Adobe CS4, CF 8, SQL 2000, Selenium, and Mercurial.

Additional responsibilities were broad in scope ranging from RSS and XML work to DHTML. Tools used included Interwoven: Teamsite, Macromedia Studio MX 2004 (Dreamweaver, Fireworks and Flash) and Notepad. Kaiser Permanente 2005 to 2005 projects/departments. Work is almost exclusively

Coldfusion MX7 and includes MSSQL (various versions), Fusebox, DHTML, Javascript, and AJAX as well as other technologies. Tools used for this position include CS3 Web Premiere Suite, CF 7.02 and 8, and SQL 2000-2005. Web Developer and Designer (Pro-bono Freelance) Girl Scouts December 2003 to December 2004 This project was a pro-bono project spanning multiple web sites for a number of local Girl Scout troops and involved neighborhood groups. The different sites use slightly varying technologies including both ASP/MSSQL, PHP/MySQL, SOAP, and Coldfusion solutions. Tools used include Fireworks, Dreamweaver, Flash, Coldfusion, Web Statistics tools, Remote administration tools and more. Web Developer and Designer (Kelly IT) Intel May 2004 to November 2004 This contract was with Intel HR and covered numerous areas of their HR Intranet. Additionally, other groups utilized my time there and did so for the full contract length. Client work included a WSS (Windows Sharepoint Services) migration/implementation in a SharepointPortal. Some of the technologies included DHTML, HTML, CSS, Java Script, .NET, MSSQL and WSS as well as design/graphic work. Tools included Macromedia Studio MX 2004 (Dreamweaver, Fireworks and Flash), Visual Studio and Notepad. Compliance Conversion Expert (Freelance) IBM May 2004 to June 2004 This project was a compliance conversion project for IBM's' RUP group. It entailed the use of compliance tools and checkers. It was a large scale HTML conversion project using Notepad/Edit pad, Dreamweaver MX, Lift and Jaws. Web Developer and Designer State of Oregon February 2004 to March 2004 This project was the Oregon State branding project. It had an extremely short project lifecycle and went live on the 12th of March under the support of their local team. It was DHTML, XHTML, XML, CSS based using Interwoven Teamsite TPL and DCR/DCT files. Tools used included Interwoven Teamsite, Notepad/Edit pad, and Homesite 5.5. Senior Engineer Whitehorse October 2003 to December 2003 Duties and responsibilities included handling numerous clients (GM, Celestial Seasonings, Rolling Stone, Diners Club, ATT Wireless, Nautilus, Stech-Vaughn) requests/projects on contract and retainer basis. High level analysis, RFP consulting, SOW definitions and similar document and project definitions. Work included PHP, JSP, JHTML, ASP, HTML, XML, XSL, Perl, Lingo, SOAP, and Actionscript. The applications/tools used included MS Commerce Server, ATG:Dynamo, Websphere, I-Planet, MSSQL, Homesite, Notepad,

Dreamweaver, Fireworks and Flash. Web Developer and Designer (Freelance) VuBay September 2003 to November 2003 This project was for the real estate developer and entrepreneur Tommy Vu. It included a patent pending turnkey solution for real estate investing, purchasing and selling online. The site uses Flash, DHTML, HTML, VMS, SOAP and Delphi/SQL web application. Tools used to develop included Flash, Fireworks, Dreamweaver, Coldfusion and Homesite as well as a number of administrative web based tools. Cadence PCB, Webmaster Hall Kinion to Kforce May 2003 to August 2003 Worked for Cadence PCB (formerly know as Orcad PCB, bought by Cadence) as their webmaster. Supported and enhanced / developed multiple Cadence sites. The sites included different technologies including ASP.Net, VB.Net, XML/XSLT, ASP, SOAP and JavaScript. The tools used included Homesite, XML Spy, Flash, Fireworks, Xmetal2, Visual .Net Studio and assorted web applications. Web Developer and Designer (Freelance) Providence Health System May 2001 to January 2003 This particular client had multiple projects. All projects were Flash interactive pieces. One was a game created for the annual bicycle event in Oregon, Bridge Pedal. Another was an interactive map application for all of their physical locations. Tools used include Coldfusion, Flash, FTP Clients, Dreamweaver, Acrobat (PDF), Homesite, Fireworks, Autocad 2002, Sound Forge and Acid Loops, Illustrator, Freehand and Photoshop. Web Developer and Designer Nike August 2002 to September 2002 This project was the Nike Town phase 2 redesign project. Tools used included Dynamo ATG, Websphere, I-Planet, Interwoven, and Homesite. Work included development of jhtml pages covering the B2C pages for their complete retail solution. Senior Engineer April 2002 to September 2002 See above. Cadence PCB, Webmaster Hall Kinion to Kforce January 2002 to August 2002 Worked for the client Cadence PCB (formerly know as Orcad PCB, bought by Cadence) on an XML/XSL/ASP conversion project. Moved multiple old sites designed and implemented as ASP/HTML sites across to newer technologies as part of a redesign. Used Dreamweaver, Homesite, XML Spy, Fireworks, Xmetal. Nike March 2001 to May 2001 Web Developer and Designer This project was the redesign of the Meridian Technology Group web site. The goals were twofold; improving the look and feel and the functionality of the site. Tools used included Visual Interdev, Dreamweaver, Fireworks, Flash, and Photo Draw. Programming included

HTML, DHTML, Java Script, ASP and Flash. Consonus, Web Application Developer Meridian Technology Grp January 2001 to March 2001 This was a Cold Fusion project for Placeware, a Consonus customer. Cleaned up the code base, created new modules, produced analytical page diagrams, created additional table structures, and aided in the overall design structure of the site as a component framework. Work included the use of the following tools: Cold Fusion Studio, Homesite, SQL, Oracle and Visio 2000. Web Developer and Designer Nike November 2000 to January 2001 This was an intranet only project with the goal being the creation of a web tool for the designers to draw inspiration and material for their work from. I worked with the library systems graphic designer to develop the site. I also worked with networking, web, general IT and support groups. Development was done on a Macintosh 8600, G3 and G4 using Dreamweaver, Fireworks, Photoshop, and Illustrator using HTML, JavaScript, and DHTML programming. The site was implemented in a UNIX environment along with MS Site. NOTE: This project and the one below occurred at the same time. I worked the Intel position early and the Nike position in the evening. Intel, Web Application Developer and Designer Nike November 2000 to January 2001 Designed and developed an Invoice Retrieval Interface to a Mobius Database using Mobius E-Search and View. Work included incorporating the interface into the existing online AP system using ASP pages, JavaScript, and HTML. Additional work included, updated AP Payment Tracker online application throughout all areas including Invoice, Confirmation Number, PO Number, and Date Range Inquiries. These updates were made using VB and JavaScript on ASP pages. NOTE: This project and the one above occurred at the same time. I worked the Intel position early and the Nike position in the evening. Professional Services Engineer Corillian Corporation November 1999 to November 2000 Duties included the design and maintenance of User Interface web pages for Corillian Clients. The Development of E-Commerce web pages interfacing to the Corillian Voyager platform were accomplished using Corillian' proprietary coding methods. All projects included very high-level JavaScript coding, ASP, XML, HTML and DHTML for functionality. Tools used included Notepad, Homesite, Interdev, Dreamweaver, Fireworks, Flash, Paint Shop Pro, Photoshop, Director, and Animation Studio. Web Master Skechers USA July 1998 to November 1999 This position was the

team lead responsible for all of SKECHERS websites. This included four unique sites as well as the company intranet, and numerous multimedia projects. Technologies used included HTML, DHTML, Java Script, and XML on Netscape web server and Apache web server. The tools used for site design and maintenance included Macromedia - Freehand, Fireworks, Dreamweaver, Sound Forge and Acid Loop, Flash, Director, Authorware; Adobe Photoshop, Aftereffects, Illustrator, and Acrobat. Web Master WEB Service Company Inc November 1996 to May 1998 Webmaster managing a team of contractors responsible for a full lifecycle online web-based system. Using a Sun Ultra Enterprise 3000 with Oracle 7 (plus Oracle web solutions) and a dual processor 300 NT machine running IIS and Visual Interdev for complete development this project included moving all legacy business systems into a web-based environment. The divisions included were Accounting, Legal, Development/Engineering, IS, Data Processing, Sales, Administration, Service, and Maintenance. Both a mobile sales program and service program were a part of the web-based system using standardized laptops with remote connectivity capabilities. In addition to all of the technical skills required for this position, communication and management skills were also necessary for management of the consulting team and upper level management communications.
