

Senior Software Engineer/Full Stack Developer Senior Software Engineer/Full Stack Developer

Senior Software Engineer/Full Stack Developer - Charles Schwab Austin, TX A result driven Software Engineer with total 10 years experience of designing, developing and maintaining web/windows as well as mobile applications. Possesses diverse experience of creating multiple highly scalable applications using different tech stacks. Adept at understanding the requirements of the clients and delivering projects accordingly. Experience in creating and consuming web services with Web API, Node.js, REST, for Service Oriented Architecture. Experience working in an Agile SDLC environment participating and adding value in all phases of software development: feasibility, requirement analysis, design, development, integration, test and delivery. Work Experience Senior Software Engineer/Full Stack Developer Charles Schwab - Austin, TX March 2016 to Present The Charles Schwab Corporation is an American brokerage and banking company. Developed StreetSmart.com which is online trading platform features intuitive workflow for placing trades real-time and various tools for Risk Analysis, Account Management and Charts. Tech Stack: Angular6, TypeScript, JavaScript, Node.js, Bootstrap, CSS, HTML5, C#, Node, jQuery UI, Node.js, Web API, ASP.NET Core, C#, MongoDB, Robomongo, ElasticSearch, Azure, REST, Microservices, .Net Core, RabbitMQ, NPM, TFS, GIT, Bamboo Worked closely with product owners to define business objectives, project scope, solution space and design/development approach for various knowledge research applications, created technical documentation Developed StreetSmart.com using Angular6, TypeScript, JavaScript, Node.js, Bootstrap, CSS, HTML5, C#, Node and jQuery UI Extensively build robust RESTful APIs component's for implementing Service-Oriented Architecture using Node.js, Web API, C#, .Net Core, MongoDB, ElasticSearch, Azure, REST, Microservices, .Net Core, RabbitMQ Designed the front-end applications, user interactive (UI) web pages using web technologies like HTML, Responsive Web Design and CSS Automated builds and deployments with Powershell scripts and Bamboo Continuous Integration Used Agile software development methodology which helps to develop project plans Involved in code review sessions to verify coding standards of team members Used Jasmine, Karma to write unit test cases and documented the same, involved in Test Driven Development(TDD) Senior Software Engineer

SUNPOWER Corp - Austin, TX October 2015 to March 2016 Sunpower is an American energy company that designs and manufactures solar panels. Developed PVS Management which is a suite of web applications, which helps in commissioning solar panels at commercial and residential sites, and both dealers and customers use these Tech Stack: AngularJS, Karma, Jasmine, Grunt, Bower, Microsoft .NET Framework 4.5, Microsoft Visual Studio 2013, MVC 5, SQL Server 2012, Windows 7, TFS, LINQ, C#, jQuery, JavaScript, NUnit, Moq, ADO.NET Entity Framework, Dapper, Bitbucket, Node.js, npm Designed, Developed, configured and maintained applications using C#, AngularJS, MVC 5.0, ASP.Net, Microsoft.net Framework 4.5, JavaScript, jQuery, CSS, HTML5 Extensively build robust RESTful APIs component's for implementing Service-Oriented Architecture using Web API, WCF and C# Used ADO.NET Entity Framework, Dapper to create the Object Relational Model(ORM) to query Relational Database from code Involving in Database Design and Implementing and Optimizing SQL Stored Procedures and queries to enhance the overall system performance Using Bitbucket, GIT for the version controlling and change control management

Senior Software Developer DELL, INC - Austin, TX April 2015 to October 2015 Parasoft Virtualize, an automated service virtualization solution, creates, deploys, and manages simulated dev/test environments. Virtualize tool can be used for simulating Database, Mainframe and Service (SOAP, REST) dependencies to accelerate SDLC. My responsibility was to working with various teams across DELL to integrate this with applications and train developers across different teams. Tech Stack: Microsoft .NET Framework 4.5, Microsoft Visual Studio 2012/2013, MVC4, SQL Server 2008R2/2012, Windows 7, TFS, LINQ, C#, jQuery, AngularJS, JavaScript, AJAX, IIS 7.5, Eclipse, Oracle, Parasoft Virtualize, Environment Manager, SoapUI Training various development teams about Parasoft tool as well as helped them integrating tool with their applications Involved in creating Proof of Concepts(POC) and prototyping for Database Virtualization and Service Virtualization Designed, Developed, configured and maintained application using Java, C#.Net, ASP.Net 4.0, MVC4.0, JavaScript, jQuery, AngularJS, CSS, HTML Extensively developed, used WCF, ASP.Net Web API components for data retrieval and manipulation. Involved into defining Endpoints, Data Contracts, Message Contracts, Bindings, Session Management, and Transaction

management in service layer and Hosting WCF services Used LINQ to SQL, ADO.NET Entity Framework to create the Object Relational Model(ORM) to query Relational Database from code Sr Software Developer EZCORP, INC - Austin, TX September 2012 to April 2015 EZCORP, Inc is a leading provider of easy cash solutions for consumers across channels, products, services and markets. TranDotCom is loan processing application used across various EZMoney Stores. Tech Stack: Microsoft .NET Framework 4.5, Microsoft Visual Studio 2010/2012, MVC4, WPF, XAML, SQL Server 2008R2/2012, Windows XP, Tortoise SVN, LINQ, C#, jQuery, JavaScript, AngularJS, JavaScript, AJAX, Crystal Reports, SSRS, SSIS, FinalBuilder, IIS 7.5 Handled work allocations, Follow-up team members and Team co-ordination Designed, Developed, configured and maintained application using VB.Net, C#.Net, ASP.Net 4.0, MVC4.0, JavaScript, jQuery, AngularJS, CSS, HTML Involving in Database Design and Implementing and Optimizing SQL Stored Procedures and queries to enhance the overall system performance Used LINQ to SQL, ADO.NET Entity Framework to create the Object Relational Model(ORM) to query Relational Database from code Senior Software Analyst Hertz Corporation - New York, NY October 2011 to September 2012 HertzCarSales is online portal to buy used cars and it has powerful search functionality based on various parameters and filters. Tech Stack: Microsoft .NET Framework 4.0, Microsoft Visual Studio 2010, MVC3, SQL Server 2008R2, Windows XP, Tortoise SVN, LINQ, C#, jQuery, JavaScript, ReSharper5.1, Google Analytics, Google Webmaster, Akamai, AJAX, Siteconfidence, WCF, ASP.Net Web API Developed HertzCarSales using C#.Net, ASP.Net 4.0, JavaScript, jQuery, CSS, HTML and MVC 3.0 Used various tools like SiteConfidence, Akamai, Google Analytics, Google Webmaster to improve systems overall performance. Software Developer Nicor National - Chicago, IL January 2011 to October 2011 Nicor National is a provider of home warranty and energy efficiency plans. ECommerce is the project which unifies different applications, databases systems within Nicor National. Tech Stack: Microsoft .NET Framework 4.0, Microsoft Visual Studio 2010, SQL Server 2008R2, Windows 7, Serena Version Manager, C#, LINQ to SQL, JavaScript, Entity Framework, jQuery, WCF, WPF, Silverlight, SSRS, SSIS. Developed applications SMS, TimeTracker using ASP.NET, C#, WPF, Silverlight, HTML, DHTML, JavaScript and jQuery.

Software Developer CB Richard Ellis Group, Inc - Dallas, TX January 2011 to October 2011

Valuation Advisory Services is an intranet web application widely used by appraisers, brokers and managers across all CBRE offices around the world. VAS includes huge database with information related to properties like Industries, Hotels, Offices, Land and Retail etc. Application Developer

Thermo Fisher Scientific Inc July 2009 to April 2010 GPM (Global Project Management) is both web/windows based applications, which has been developed to support the continuum of supply chain needs with in clinical trials. Tech Stack: Microsoft .NET Framework 3.5, MVC, SQL Server 2008, Windows XP, TFS, C#, LINQ to SQL, Windows Forms, ComponentOne, jQuery, WCF, WPF, Silverlight, SharePoint 2007

Verizon Telecom Tech Stack 2010 to 2010 MVC2, SQL Server 2008R2, Windows XP, TFS, NHibernate, C#, Silverlight 4.0, JavaScript, ReSharper5.1, ExtJS Controls, jQuery, WCF, WPF, SSRS, SSIS, Crystal Reports, SharePoint 2010

Software Engineer Irving January 2008 to June 2009 This web application is used by call center representatives to retain existing customers by issuing offers or discounts, according to their eligibility. These offers are shown based on the customer profile, the previous offer history and various other parameters. Tech Stack: C#, ADO.NET, DevX 7.2/9.2, WCF, SQL Server 2005/08, SSIS, SQL Reporting Services, Telerik, NHibernate, Windows XP, VSS, Clearcase

Education Master Of Science in Systems Engineering in Systems Engineering Northern Illinois University August 2006 to September 2007 Bachelors in Mechatronics Engineering in Mechatronics Engineering Mahatma Gandhi Institute of Technology - Hyderabad, Telangana June 2002 to May 2006

Skills .NET, API, C#, Git, JAVASCRIPT, BOOTSTRAP, TYPESCRIPT, JENKINS, JSON, .NET CORE, WCF, PYTHON, XML, JAVA, jQuery, SQL SERVER, SQL, AJAX, ASP, ASP.NET

Additional Information TECHNICAL SKILLS Angular React TypeScript JavaScript CSS3 HTML5 Bootstrap MongoDB Jquery noSQL ES6 REST API C# JAVA ASP.NET Core MVC .NET Core WebAPI WCF AJAX SQL Server 2017 Node NPM JSON GIT Python Jasmine Karma NUnit XML Bamboo CI Jenkins CI RabbitMQ

KEY SKILLS Bug Fixing & Troubleshooting Client Requirements Stable codebase End to end Testing Mobile Apps Web Apps Highly Scalable Applications Agile Development Process Optimization Solutions Architecture & Delivery
