

Full Stack Web Developer Full Stack Web Developer Full Stack Web Developer - Big Brand Tire & Service Fillmore, CA Work Experience Full Stack Web Developer Big Brand Tire & Service - Camarillo, CA January 2015 to Present Part of an agile development team, building a multi-faceted application for the Tire & Service industry. This application focused on Point-of-Sale features such as 'Scheduling an Appointment', 'Selecting Tires or Service' and 'Checkout' to schedule appointments. It also includes modules such as 'Inventory', 'Reports', 'Human Resources', 'Tire Transfers', 'Warehouse Management' and a 'Support Tracking System.'" These tasks encompass the development of "BigBrandTire.com", built with focus on four main points, SEO, Page Speed, User Friendliness and responsive, and of course to sell tires. This project excelled. www.bigbrandtire.com Software Developer Utilizing high level programming languages such as java, C#, and SQL various apps were build to create a network of micro services whose primary function was to store data. One of those being a library that converts specifically WHI's xml data into JSON and requiring three levels of security. Two from WHI and one me. www.nuget.org/packages?q=whi, Other related projects include: www.github.com/BigPosSolutions
