

Front- End Developer Front-End Developer Front- End Developer - Lead Ferret Inc Los Angeles, CA

2+ years of experience with Web Application Development with a focus on Front End Development. Extensive experience in Web application, User Interface Development, Client Co-ordination including professional experience in HTML5, CSS3, Bootstrap, JavaScript, Typescript, jQuery, JSON, Ajax and Angular 2/4. Experience of working on CSS Preprocessors like LESS and SASS along with JavaScript task runners like Grunt. Good working knowledge of Responsive Web Design(RWD) using Bootstrap and CSS3 media queries. Hands on knowledge of EcmaScript6 (ES6) arrow functions, constants, block-scope variables, class inheritance. Sponsorship required to work in the US Work Experience Front- End Developer Lead Ferret Inc - Los Angeles, CA July 2017 to Present Used Angular 2/4 as framework to create a Single Page Application (SPA) which can bind data to specific views and synchronize data with server using Bootstrap. Used Media Queries (Responsive Web Design) techniques and Bootstrap to enhance user's behavior based on screen size, platform and orientation. Used ES 6 for development of applications. Created Typescript reusable components, Pipes, Directives and services to consume REST API's using component-based architecture provided by AngularJS 4 framework Experienced in working with Iterative Agile Programming methodologies. Front- End Developer Meridian Software Technology - Gujarat, IN January 2013 to July 2015 Used Model View Controller framework such as Angular JS framework for creating Single Page Application. Responsible for creating front end applications, user interactive (UI) web pages using web technologies like HTML, CSS, JavaScript, jQuery, AJAX, JSON and Bootstrap. Involved in writing application level code to perform client- side validation using Form Validation JS. Worked with bootstrap to create Responsive web designs for multiple departments/pages. Wrote a combination of jQuery plugins, as well as completely custom JavaScript to build a bleeding-edge, AJAX-driven user interface and REST-FUL Services using AJAX (\$http) to perform GET and POST data to backend servers. Developed custom directives in Angular JS that could be re-used like a template across the application and can be re-used to manipulate DOM across the application. Followed the (TDD) Test Driven Development with writing unit test cases in JASMINE for Angular. Education

Master of Electrical and Computer Engineering in Electrical and Computer Engineering California State University - Los Angeles, CA September 2015 to May 2017 Bachelor of Engineering in Electronics & Communication Gujarat Technological University August 2009 to June 2013 Skills Bootstrap. (2 years), HTML (2 years), JavaScript (2 years), jQuery (2 years), CSS (2 years), AngularJS (1 year), Angular 2/4 (1 year) Links <https://github.com/hardik114> Additional Information SKILLS Web Development: HTML/HTML5, CSS2/CSS3, Bootstrap, JavaScript, jQuery, AJAX, JSON, Typescript, AngularJS Software Tools: Visual studio, Notepad++, Eclipse, Sublime, Chrome Developer Tool Methodologies: Agile, Scrum, Waterfall, Hybrid (Agile-Waterfall) Platforms: Windows, MAC OSX, and Linux 02
