

President and CEO President and CEO President and CEO - Rapid Solutions Design Markesan, WI
RS3DC is available to provide services including Microsoft BI Stack Solutions (SSRS reports, SSIS packages, and other custom hybrid Solutions utilizing Microsoft Azure and on-premise resources for your company's success. In addition, I work with Nigel Frank International to deploy and support Microsoft Dynamics GP for customers in the state of Wisconsin and surrounding regions. Other services include setting up Microsoft Office 365 for your organization and setting up MFA (multi-factor authentication) and email encryption for Office 365. Authorized to work in the US for any employer Work Experience President and CEO Rapid Solutions Design September 2018 to Present Development, and Deployment Corp RS3dc 17 years of experience with the Microsoft BI Stack developing solutions with SSMS, SSRS, SSIS and SSAS. 17 years of experience deploying, updating, supporting routine updates to various modules, and working with a Value Added Reseller to design data capture tools like work orders and other solutions to better track costs and allocate them to the 3 companies (AT, AF, AFPI) based on cost/mile, cost/acre, cost/hr/process, etc. with Microsoft Dynamics Great Plains or simply Dynamics GP. Projects varied by companies that I have worked for and 3 employers used different versions of GP from Version 6.0 to Dynamics GP 2015. I've set up the Web Client for Dynamics GP a few times. I will be working as one of Nigel Frank International's consultants for deploying and support of GP in the state of Wisconsin and the surrounding regions. Database Developer National Association of Tax Professionals December 2015 to October 2018 Fulfill all business intelligence reporting needs and develop a data warehouse. I worked on over 70 sprints and still continue to and have completed projects like implementing Office 365 email encryption. Creating a Midnight Copy process for encrypting and transporting the production database nightly to our local office. We continue to add to our CRM and other tools in our data warehouse. Other ETL projects include receiving address updates back from the postal service and other logistic partners and updating the corresponding systems with the new information. Business Intelligence Analyst Beaver Dam Community Hospitals, Inc February 2014 to November 2015 Responsible for working with business and functional department Directors and Leads to gather requirements to build reports with SSRS and design solutions to meet Informatics

and regulatory needs, improve process efficiency, and provide scalable business intelligence tools. Managed BI reporting and project load between myself and senior programmer consultant since the Senior BI Specialist was promoted to Process Improvement Facilitator in July 2014. Participated in two Rapid Improvement Events each month since August 2014 designing reporting dashboards and matrixes for process champions and owners to measure current state and progress towards goals in the areas the RIE's focused each month. I provided large data extractions from Paragon and Practice Partner of patients, insurance, providers, labs/rads, etc for ETL into the new eCW EMR. Serve as the Application Administrator for returning remote hosted software back on-site to improve QoS, uptime, and efficiency. Helped lead and support the implementation of the Hospice Pharmacy Import Utility and sending of medications to CMS. Project manager for the SQL Server database upgrades from 2005 to 2008R2 SP2 cluster. Assisted with creating the functional design specifications for the Horizon Home Care and ECS export to Patient Call Manager. Project lead performing ETL with SSIS on the WHA files loading them into a database and designing reports and graphs in SSRS and validating the data. IT Manager Alsum Farms & Produce, Inc May 2003 to December 2012 Database Administrator for multiple MS SQL Server databases Alsum Farms & Produce, Inc 2005 to 2008 databases including maintenance, upgrades, and report writing with MS SQL Reporting Services Development of cost accounting module for Microsoft Dynamics Great Plains working with a VAR to set up data capture tools (work orders, etc), allocation methods and reporting of cost per mile for transportation fleet Systems Administrator experience Handled strategic planning for company IT infrastructure Implementation of backup and systems recovery procedure and software(Symantec and Barracuda Networks).
