Systems Administrator Systems Administrator Assistant Technology Director - Hugoton Unified School District Hugoton, KS I have worked in an IT support role since 2011 and have gained much from it. I have progressed to the level of Assistant Technology Director. My role in IT introduced me to scripting to manage our fleet of Macs and got me curious about programming. I decided to pursue a degree in computer science and completed that recently. Now, in my spare time, I am focusing on specific libraries in React and learning new technologies such as AWS and GraphQL. Authorized to work in the US for any employer Work Experience Systems Administrator Hugoton Unified School District January 2011 to Present Managed various systems across the school district ? Solved problems related to a wide range of end-user and infrastructure devices ? Adapted continually to new responsibilities and initiatives Education Bachelor's in Computer Science in Computer Science Fort Hays State University June 2016 to December 2018 Skills System Administrator, System Admin, Linux Administrator, Linux Links http://www.github.com/gregleeper Additional Information Skills   Javascript, C++, Java, React, REST, GraphQL
