Full Stack Developer Full Stack Developer Full Stack Developer Los Angeles, CA I am a software expert who has developed products for clients such as B Riley Financial, Hosa Tech, and StoneFire Grill, as well as many other businesses. Building elegant solutions to problems is what fuels my creativity and drives me to produce clean and high performing applications. My objective is simply to be the best developer I can be and continue to contribute to the tech industry by learning from seasoned developers, remaining humble, and continuously making strides to learn all that I can about development. As a firm believer that teamwork is the secret that makes common people achieve results. I have done work in software development, mobile app creation, front-end/back-end web, database/server, and graphic design. I m an outgoing individual that likes to learn and on the weekends surf and hike.
