PERSONAL PROJECTS

FASHION-LY

Progressive Web App on the Android app store which allows users to discover, create, and share outfits created on the in-app clothing catalog. What makes this app unique is that if a user buys an outfit, then the creator of that outfit will receive an affiliate commission for the sale.   Written in Django, Python, Javascript, SQL, and Java   Owner, Developer https://play.google.com/store/apps/details?id=com.fashionly.donow.webview2   OPTI-TRAINER

Progressive Web App currently un-released which allows users to create workout routines which are dynamically tailored to their individual body types. The platform can assign strength scores to each muscle based on what weights the user enters for their generated exercise routine and can predict if the user is on track for optimal body composition and injury prevention.   Written in Django, Python, Ionic, Javascript, SQL   Owner, Developer   www.opti-trainer.com RENT A PUPPY   Web platform which lets users rent a dog for some allotted time. Plans to pair up with ASPCA shelters to maximize benefit for all parties.   Written in Django, Python, Javascript, SQL   Owner, Developer Education B.S. in FRESNO CALFIRONIA STATE UNIVERSITY May 2017 Skills JAVASCRIPT (4 years), PYTHON (4 years), CSS (3 years), HTML (3 years), CLIENTS (2 years) Additional Information SKILLS & ABILITIES PROGRAMMING   Extensive knowledge in building web application's front and back end systems   Proficient in: Python, Javascript, HTML, css Comfortable working with: C#, ASP.net, Php, SQL, PostgreSQL, mongoDB, SQLite   Have experience with: C++, C, Java, GoLang, Haskell, R, IIS, Oracle   Frameworks: Django, Meteor.js, Grappelli, Android, Wordpress, Joomla   IDEs: Intellij, PyCharm, VisualStudio, Android Studio COMMUNICATION   My past work has revolved largely around being able to communicate effectively with clients, customers, and teammates.
