Asst. Dir Experience Design Technology Asst. Dir Experience Design Technology Asst. Dir Experience Design Technology - EY Atlanta, GA Assistant Director in the EY Assurance CT Organization as a lead of Experience Design Group(XDG) for the past five years. With 20 years of experience in interface design and development, my focus is the delivery of UX through modern technologies. Utilizing the latest in HTML5, CSS and Javascript to deliver across EY's assurance product portfolio. Previous to EY the majority of my career was in advertising/marketing, first as a designer then moving into development to better understand the implementation of the UI. Leaving Razorfish in 2013 for EY to help build the creative initiative for their enterprise audit software. Duties included collaboration and coordination with UI designers, managing the front- end development for Assurance CT products, consulting on UI design/development for projects in other business sectors (Tax & Advisory), front- end development training workshops in India & leading product des on XDG design on internal projects such as the "help framework" and design system. During my tenure at EY my career path has been to share a development aware approach of design thinking and growing the front- end development of experience design into a community practice for Agile development. Work Experience Asst. Dir Experience Design Technology EY 2013 to Present Experience Design Technology Management - FACT 1.0-2.0, Leases, ISQC, Scorpio, Partner Rotation   EY Canvas - Experience Design Dev Management/Prod-Design Road-mapping   EY Atlas - XD UI Dev Management/CSS framework for CMS   EY Helix - XD UI Dev Management/Prod-Design Roadmap   EY UI Component Library - Reusable UI Components for development   EY Design System - Ecosystem for Design Rationale and tools for application development   RWD DevKit - Example website for kick-starting responsive web applications Gamification Strategy Proposal for EY Learning   Behavioural Metrics Technical Strategy   SVG Guidelines for Responsive Development   EY HTML5 Development Guidelines   EY CSS Development Guidelines   Assurance CT Accessibility Strategy   Agile Front- end Development Strategy   Front- end Development Training Curriculum & Workshops Presentation Layer Developer (PLD) Razorfish 2011 to 2013   Front- end Markup and SASS of Citibank/SEARS Credit Card Marketing Site   Presentation layer of AT&T Digital Life Product Interface Development   Front- end
