UI Developer UI Developer UI Developer - Wizards of the Coast Renton, WA   More than 4 years of strong development experience in User Interface applications.   Building Web User Interface (UI) using HTML/HTML5, DHTML, XHTML, CSS/CSS3 and JavaScript, jQuery that follows W3C Web Standards and are browser compatible.   Solid experience with Responsive Web Design (RWD) technologies like AngularJS, jQuery, jQuery Mobile, Node.js, Bootstrap, HTML, XHTML, DHTML, CSS, XAML, XML, XSL, XSLT, JavaScript, AJAX and JSON.   Strong experience in working on modern full stack JavaScript environment like MEAN (Mongo, Express, Angular, Node).   Expertise in designing Event Handling Models such as Listener and Dispatcher in OO JavaScript.   Built custom CSS using CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements and CSS Behaviours in web pages. Experience in working with RESTful Web Services and implementing RESTful API's.   Experience of working on CSS Pre-processors like LESS and SASS along with JavaScript task runners like GruntJS.   Experience in taking performance optimization measures for website/web applications to reduce the response times and hence enhancing the end user experience.   Good experience in writing back- end SQL, PL/SQL queries for fetching data.   Experience in creating test suites using jasmine and worked on tools like npm, Bower, Grunt, Testem.   Experienced in using UI editors like Sublime Text Editor, Eclipse,Notepad++ and Aptana Studio.   Extensive experience in creating style guides, best practices and setting UI standards for enterprise/consumer applications.   Expertise in using source code control systems such as GIT, JIRA, and Jenkins for maintaining versions across various releases.   Excellent experience in developing web pages complying with Web Content Accessibility Guidelines (WCAG) and ability to apply W3C web standards.   Expertise in analyzing the DOM Layout, Java Script functions, Cascading Styles across cross-browser using Fire Bug, Developer Tool Bar.   Experience working with testing tools like Firebug, Firebug Lite, Chrome or Safari web inspectors and IE Developer Toolbar.   Familiar with cross-browser application Testing, Debugging across desktop and mobile.   Experience in all phase of SDLC like Requirement Analysis, Implementation and Maintenance and extensive experience with Agile Methodology. Highly motivated, reliable analytical problem solver and trouble shooter with strong attention to

detail. Quick learner and proficient in solving the technical issues in the project. Followed Waterfall and Agile/Scrum methodology of software development, which satisfies the customer through early and continuous delivery of valuable software. Involved in the production support of the applications. Authorized to work in the US for any employer Work Experience UI Developer Wizards of the Coast - Renton, WA October 2015 to Present Responsibilities: Worked in Agile/SCRUM methodology approach for UI Development. Built rich prototypes and applications using HTML5, CSS3, JavaScript, JQuery, Ajax, JSON, AngularJS, Backbone.js and Bootstrap with Oracle database. Worked with AngularJS routers, forms, modules, dom, events, expressions, controllers, filters and HttpRequest. Implemented bootstrap CSS in AngularJS for developing rich and responsive UI. Used AngularJS Http Request to read data from web servers and process JSON data to render in the UI. Worked on Node.js and NoSql data stores. Developed Object Oriented JavaScript code and responsible for client side validations using jQuery functions. Developed source code to consume JSON response received through AJAX calls using jQuery. Coding, testing of reusable JavaScript, CSS3, HTML5 widgets / libraries for complex UI controls. Responsible for JavaScript / AJAX UI upgrades and improvements. Performed a lot of DOM operations for loading and manipulating dynamic content on webpages. Front- end prototype and theming with Bootstrap, AngularJS, jQuery. Developed callback functions to parse and handle JSON data returned from the server. Developed all client-side logical implementation part of applications with AngularJS controllers under specific modules, manipulating nodes in DOM tree. Implemented test cases and performed unit testing using Jasmine, Grunt and Phantom.js. Conducted user testing sessions to solicit feedback on prototypes. Managed advanced techniques for single page business solutions and front- end MVC patterns. Implemented JavaScript module patterns using asynchronous script loading. Tested cross browser functionality and fixed major layout bugs for supported browsers. Developed and prepared test cases for unit testing with jUnit. Made enhancements to existing CSS and DIV tags using box model. Environment: AngularJS, Apache Tomcat, HTML5, CSS3, SASS, JavaScript, jQuery, Bootstrap, XML, MV* Framework, Notepad++, Sublime text, Eclipse, Tortoise SVN, Oracle, SQL Developer. UI Developer Landmark

Technologies - Hyderabad, ANDHRA PRADESH, IN July 2014 to July 2015 Responsibilities: Participated in Software Development Life-Cycle (SDLC) preparing Requirement Specification documents, design documents, Test cases and Analysis, User Training documents and Technical Help documents.   Designed and implemented the User Interface using Google's AngularJS MVC framework (JavaScript, HTML, and CSS), jQuery, RequireJS, JSP and Ajax.   Participated with SQA team in bug thrashing sessions to discuss and resolve bugs that were reported in JIRA. Responsible for creating the screens with table less design following W3C standards.   Worked with business analysts to understand their business models and goals.   Used JSP, Servlets and HTML to create web interfaces.   Developed Java Beans and used custom tag libraries for embedding dynamic into JSP pages.   Used advanced level of HTML, JavaScript, CSS3 and pure CSS layouts (table less layout)   Produced content pages with CSS3 layout and style markup presentations and also used JavaScript methods and properties.   Used Ajax extensively to implement front end /user interface features in the application.   Successfully implemented Auto Complete/Auto Suggest functionality using Ajax, jQuery, Web Service call and JSON.   Developed a core component of Analytics with AngularJS.   Designed and developed custom jQuery components for the front end client side validations.   Developed dynamic e-mails using JavaScript, and hand coding of HTML and CSS3.   Responsible for quality assurance of finished websites including the validation of web forms and links. Environment: HTML, CSS3, JavaScript, jQuery, AngularJS, RequireJS, Bootstrap, MongoDB, MS Access, Adobe Flash, MS Office, IE, Firefox, Chrome. Front End Developer Xcelerate Solutions - Hyderabad, ANDHRA PRADESH, IN June 2013 to July 2014 Responsibilities: Interacted with the client to understand their existing applications and design the site according to their system requirements thereby played important role in requirement gathering.   Involved in structuring and facilitating Rapid Application Development sessions.   Designed and developed the front end using HTML, DHTML, and XML.   Designed CSS templates for use in all pages on the website working with CSS Background, positioning, text, border, margin, padding, table.   Pseudo elements and CSS3 Border, CSS3 Background, CSS3 Transitions.   Used JSON for data interchange, as it's faster and can be parsed using JavaScript.   Extensively worked with JavaScript

cookies. Developed JavaScript and optimized existing scripts for efficiency. Used JavaScript, HTML, and jQuery for forms validations. Used the jQuery widgets like Accordion, Date picker, Draggable, Droppable, Resizable jQuery interactions. Redesigned user interface HTML frameworks with Bootstrap and refined CSS styling. Worked with jQuery UI plug-in like Widgets, Interactions, and Effects. Worked on AngularJS, which combines web applications with Model View Controller capability to make development and testing of code efficient. With responsive design to create one well-planned site to deliver an optimized experience in context to each device or screen size. Worked with jQuery Message plug-in, jQuery Validation Plug-in. Applied optimization techniques to reduce page size and load times to enhance user experience using sprites. Used Ajax, XML, Http Request to post chat messages and to periodically check the server for new messages and update your chat window. Designed graphics, buttons, logos and flash animation for the website. Validated the code using W3C Mark-Up validation and also checked for the cross-browser compatibility using Cloud Testing. Environment: HTML, XHTML, DHTML, CSS, CSS3, JavaScript, jQuery, AngularJS, XML, XSL, XSLT, JSON, DTD, Restful API. Skills AJAX (3 years), ANGULARJS (3 years), BOOTSTRAP (3 years), CSS (3 years), JAVASCRIPT (3 years) Additional Information Technical Skills: Web Technologies HTML, DHTML, XHTML, Bootstrap, HTML5, XML, JSON, CSS, CSS3. Tools Visual Studio, Eclipse, Adobe Photoshop, Dreamweaver, Ms Office, Notepad++, Sublime Text Editor Languages Java, JSP, JavaScript, jQuery, AJAX Source Control tools SVN, Subversion. Frame Works AngularJS, JavaScript, Backbone.js, ExtJS, jQuery, jQuery Mobile Operating System Windows 95/98/2000/2003/NT/XP, Windows Vista/7/8, LINUX/Unix, Mac Servers & Testing Tools WebLogic 10/9, JBoss, Tomcat 7/6/5, WebSphere , NPM, Bower, Grunt, Testem, Phantom.js Debugging Tools Firebug, Chrome Developer Tools, JIRA. IE Developer tools
