Front End Developer Intern Front End Developer Intern Front End Developer Beaverton, OR Excited front end developer with a strong background in problem-solving and logistical challenges. Combining both my interests in design and development to successfully deliver a polished project. Motivated to continue my skills and gaining new experiences from a diversity of teammates.

Authorized to work in the US for any employer Work Experience Front End Developer Intern RFPIO, Inc - Beaverton, OR June 2019 to July 2019   Worked collaboratively with another intern and the Senior Marketing Manager for creating 3 landing pages within the Wordpress framework.   Created designs and mock-ups using Figma for approval from the design team.   Analyzed data from Google Analytics and Hotjar and communicated trends to the team.   Assisted implementation team by providing step-by-step instructions on replicating a Gutenberg Block on the website. Dispatcher Jacobs Heating & Air Conditioning - Milwaukie, OR March 2016 to August 2018   Managed a team of 15 technicians, creating the schedule for each and making sure they were efficient and organized.

   Devised my own system for problem solving the fast paced and rapidly changing environment. Monitored the technicians' workload to make sure all the customers were taken care of and update customers as needed.   Used excellent written and verbal communication to keep my teammates up to date on the status of the schedules. Dispatcher CM Service/Comfort Service USA - San Carlos, CA July 2011 to January 2016   Took on full-time dispatch responsibilities with only 3 days training, during a historically busy period.   Developed problem-solving and logistical skills by making efficient schedules for each technician   Sought out new opportunities to expand my knowledge of the company processes in order to assist in other areas when needed. Education Certificate in Front End Development Epicodus - Portland, OR January 2019 to July 2019 Skills HTML 5, CSS3, Javascript, JQuery, Reactjs, Angular, Webpack, Wordpress, Git, Sass, UI/UX Design, Google Analytics, Organizational Skills, Bootstrap Links https://github.com/PhilipEskins https://www.linkedin.com/in/philipeskins/ Certifications/Licenses Front End Developer January 2019 to Present   Attended a full time 27-week course in Front End Development.   Command line and Git experience from day one.   Experience with multiple programming languages and technologies including HTML, CSS, SASS, JavaScript, jQuery, Angular, React, Webpack, Karma/Jasmine,

Sketch and UI/UX design.   Daily pair programming and three team projects. Additional Information PROJECTS Dog Guess Game: HTML, React, Redux, Firebase Original game concept focused on guessing the breed of a random dog picture. It keeps score of your correct guesses and allows you to store you score in a database. It also displays the top ten high scores and allows you to update your score even after submitting. https://dog-react.web.app/   Monopoly: HTML, SCSS, JavaScript, Angular, Firebase This group effort by a team of four developers achieved our goal to recreate the game Monopoly over the course of three days. We conducted team stand-ups to have internal check-ins, task delegation, and time management to reach our deployable MVP in our allowed timeframe. https://monopoly-4bd44.firebaseapp.com/
