Technology Coordinator/ Network Administrator Technology Coordinator/Network Administrator Technology Coordinator/ Network Administrator Snow, OK Experienced Computer Technician/Server Administrator/ Network Administrator looking for a great opportunity to use my skill set. Work Experience Technology Coordinator/ Network Administrator Clayton Public School July 2014 to June 2019 I previously resided over 200+ Windows 10 desktops, 5 Windows Server 2008 servers, 70 iPads managed with Profile Manager, deployed and manage our Unifi Wi-Fi System, and have installed and supported many printers, lot devices, network switches, and cables required to support these. I have installed many Cat 5/6 drops and have wired complete labs to our lan and have also installed 60+ Security Cameras in the school and manage these as well. Additionally, I built my own imaging server inside Linux for quick deployment of new Windows systems. In my many years in this field, I gained a great degree of experience with Mac OS, iOS, and Android operating systems. Also, I do several audio, video, and photo projects throughout the year as needed. My job required me to work with several people to apply for and receive grants, deploy new technology, and plan for new projects. In the previous years, I researched, ordered, and helped install new RFID based door access controllers for securing our students and to make the school a safer and more efficient place for students to learn and enjoy.
