Database Administrator Database Administrator Database Administrator - Ultrafryer Schertz, TX

Experienced Database Administrator with 2 years of experience working with SQL Server Management, writing SQL queries, and building reports with SQL Server Report Manager. Additionally, I have similar experience with network infrastructure, Windows Server management and VoIP services. I have working knowledge of C# programming using the .NET platform and have deployed custom tailored software, with a SQL back end, for company use.   Previously, I was a project manager professional with 6 years of experience working with the development, testing, deployment and application of database solutions in regards to AT&T U-Verse. Documented success of maintaining a 99.99% accuracy during the management of sports blackouts on AT&T U-Verse. Maintained working relationships with outside developers as well as third party vendors, such as Pace, Alcatel-Lucent and Ericsson.   I am very personable and comfortable adapting to any situation easily. I have a strong attention to detail and can easily visualize analytics.
