Full Stack Developer / Designer Full Stack Developer / Designer Full Stack Developer / Designer Bronx, NY Self-motivated and creative full-stack developer looking to create a digital impact Authorized to work in the US for any employer Work Experience Full Stack Developer / Designer Roomly - Bronx, NY January 2019 to Present   Created and deployed a full stack hotel/room listing web application with Heroku.   Leveraged branding experience to create logos using Illustrator, mobile and web mockups using Adobe XD, and engineer a mobile friendly responsive front-end utilizing Bootstrap 4 and EJS.   Developed direct experience in proper RESTful routing, and in NoSQL technology like MongoDB (schema modelling, CRUD operations, pagination, indexing, cluster deployment and management with MongoDB Atlas) using Mongoose.   Implemented multiple user image upload and CRUD capabilities with the Cloudinary API and Multer Express middleware.   Constructed geolocation and cluster maps to display listing locations utilizing the Mapbox API.   Added a password reset feature that utilizes emails for verification using the SendGrid API.   Integrated Google OAuth and local user authentication strategies with PassportJS.   Migrated initial front-end framework from Bootstrap 3 to Bootstrap 4 and upgraded JS ES2015 syntax and callbacks to employ modern JavaScript ES6 practices for a cleaner code base. React Developer Video Browser - Bronx, NY March 2019 to March 2019 Developed reusable react components to create a web app that utilizes the YouTube API to search for videos, play videos, and display related videos. Python Developer Pytris - Binghamton, NY November 2017 to December 2017 Created a clone of the popular puzzle game Tetris using the Open Source Python game library Pygame and included a 2D 3 lane car dodging game within the GUI called Road Rage. Founder/Treasurer S.H.I.N.E. - Binghamton, NY August 2014 to May 2016 Founded a non-profit student-run organization, with 6 other students, focused on tackling trending issues through awareness, volunteer opportunities, fundraising, and general body meetings.   Created logos, flyers, advertisements, and merchandise designs in Adobe Illustrator/Photoshop.   Monitored, recorded, and reported on the org's expenditures, and budget weekly. Brainstormed annual org events to successfully fundraise $2k scholarships for at risk high school students. Education Bachelor of Arts in Mathematics and Minor in Computer Science Binghamton University, State
