Optimization Coding and increase running speed of project. Sdk Tools Connect for projects (automatic Reader Setting) (R & D Camera). Tested Process in Staging process. Technology: VB.Net, MS Access, and SQL(Windows Application), pl/Sql, WCF DICOM is used worldwide to store, exchange, and transmit medical images. DICOM has been central to the development of modern radiological imaging: DICOM incorporates standards for imaging modalities such as radiography, ultrasonography, computed tomography (CT), magnetic resonance imaging (MRI), and radiation therapy. DICOM includes protocols for image exchange (e.g., via portable media such as DVDs), image compression, 3-D visualization, image presentation, and results

reporting   Company: Technology (Duration: 2 years Nov 2011 to Oct 2013)   Firm of Web Based software development taking projects of USA clients.   Responsibilities   Developmentof web based application based on client's designs & requirements.   GUI Application takes into consideration its functional requirements.   Assigning / Managing / Deciding Priority of Development tasks. Software firm of Web Based software development.   Leading Software Firm in Insurance Software, mainly broker software.   Having customers in Ireland for Insurance software.   Made software with name ECR-Magic, Broker-Magic. Post: Software Developer Project Details: Project Title: HRMS Platform: Windows 7 Professional. Technology: Dotnet, MS Access, MS SQL, Asp.net, PL/SQL, C#   Leave System (HRMS) maintains the leave details of employees. Employees record their attendance in the system at the beginning and end of each working day. The system calculates the number of working days and the number of absent days and provides inputs to the payroll department. Leave applications are reconciled with the attendance records and the exceptions are highlighted. System caters to multiple types of leave (casual, privilege, sick etc.) and provides workflow for approval of leave applications. Employees can check their own leave and attendance records online.   Project Details: Project Title: CMS(Collage Management Systems) Platform: Windows 7 Professional. Technology: Dotnet, SQL, Asp.net, C#, PL/SQL   Post: Software Developer The project is "COLLEGE MANAGEMENT SYSTEM FOR COLLEGE" (CMS).
