Front- End Developer Front-End Developer Front- End Developer - Jackson Furniture Chattanooga, TN I am a Front- End Developer who helps companies develop and build interfaces and web apps so they can optimize workflow, increase revenue and productivity. Work Experience Front- End Developer Jackson Furniture - Chattanooga, TN July 2017 to Present Complete redesign and overhaul of Jackson Furniture s website using HTML5, CSS3 and JavaScript to create a responsive site for any device that you are on. During redesign, used AJAX to communicate to a PHP Laravel backend to bring all products and data into view from a SQL/DB2 databases. Work with PHP and Python teams to create and manage web apps for internal user teams and for our external dealer portals. Refactor and reduce existing code base from 12 companywide sites down to three across all platforms. Develop backend code in Laravel to handle and manipulate data. Starting to transition frontend to Vue.js Front End Developer MedProcure, LLC - Seneca, SC March 2017 to July 2017 Contracted to design, develop and implement the front end of their new Supply Chain Management Software. Combining HTML5, CSS3, Vanilla JavaScript and jQuery, I created the front end for their meal planning application where schools can offer to parents as a nutritional resource. Using AJAX, I communicated with a PHP Backend to pull in all data to view and manipulate based on user interaction. Education Winthrop University August 2004 to May 2009 Skills HTML 5 (5 years), CSS3 (5 years), Javascript (3 years), PHP (2 years), MySQL (Less than 1 year), Vue (1 year), React (1 year), Laravel (2 years), JQuery (3 years) Links http://www.thinkfrazier.com
