Consultant Consultant Consultant - Infosys Technology Pvt. Ltd US   Got excellence award for outstanding performance from Barclays(Client).   Migration of database successfully using Golden gate technology.   Part of database automation team, build and successfully deploy application using automation tool(ipsoft)   Hands on a experience of Oracle, SQL, PL-SQL, Shell scripting, Oracle Architecture, RMAN, RAC, SQL tuning and Performance tuning, golden gate   Mainly RAC Implementation / Installation..   Dataguard build and Administration   Database build and Automation   Oracle DBA and In-house cluster projects and implementing on-time solutions to increase project efficiency and decrease costs.   Experience in managing Oracle Database & Data migration projects..   Experienced in Designing Hadoop Architecture In-house and in different Cloud Platforms with Production Ready Features like High Availability, scalability ..etc   Worked and have in-depth Experience in HDFS, MapReduce, YARN, Hive, Pig, Sqoop and Zookeeper. Work Experience Consultant Infosys Technology Pvt. Ltd - PUNE, MAHARASHTRA, IN 2019 to Present Responsibilities   Mainly RAC Implementation /Installation.   RAC Trouble shooting issue. Database build and automation   Dataguard buid and gap resolution   Manintaining backup and recovering data using RMAN   User Management, Space Management and performance Management   Administrative support for Oracle database, Oracle RAC DB.   Setup and implementation of Oracle RAC, RMAN, Oracle Standby DB, DR. Database performance tuning. Senior Database administrator Wipro Technology Pvt. Ltd - PUNE, MAHARASHTRA, IN March 2018 to December 2018 Client: City Bank Duration: Dec- 2018 to Mar-2018   Responsibilities RAC Trouble shooting issue.   Dataguard buid and gap resolution   Manintaining backup and recovering data using RMAN   User Management, Space Management and performance Management   Administrative support for Oracle database, Oracle RAC DB.   Setup and implementation of Oracle RAC, RMAN, Oracle Standby DB, DR. Database performance tuning. Senior Database administrator (Oracle) Wipro Technology Pvt. Ltd - PUNE, MAHARASHTRA, IN October 2015 to November 2018 Responsibilities   Experience in managing database operations, projects and implementing on-time solutions to increase project efficiency and decrease costs. Mainly RAC Implementation /Installation.   RAC Trouble shooting issue.   Database build and

automation   Goldengate configuration and build   Dataguard buid and gap resolution   Manintaining backup and recovering data using RMAN   User Management, Space Management and performance Management   User management, Space management, File Management and Performance management.   Oracle wallet setup.   Administrative support for Oracle database, Oracle RAC DB.   Database upgrade and patching   OEM configuration   Setup and implementation of Oracle RAC, RMAN, Oracle Standby DB, DR. Database performance tuning.   Experienced in Designing Hadoop Architecture In-house and in different Cloud Platforms with Production Ready Features like High Availability, scalability ..etc   Worked and have in-depth Experience in HDFS, MapReduce, YARN, Hive, Pig, Sqoop, Flume and Zookeeper. Oracle Dba (Oracle) Kpit Technology Solutions India Pvt. Ltd - PUNE, MAHARASHTRA, IN January 2014 to September 2015 Client: CUMMINS (US) / UKPN   Duration: Jan - 2014 to Sept- 2015   Responsibilities   Support 24x7 Oracle Database.   Resolving issue as per tickets.   Regular monitoring the database and troubleshooting the errors   Managing physical standby database.   Successfully implemented Oracle Rac on AIX 7.1   Monitoring database space requirements and adjustment for future needs.   Resolving the issue of hot and archive back if it is fail.   Monitoring the database availability as per tickets.   Assign and manage privileges as per client request.   Carry out logical backups using export and import utilities.   Backup and recovery of database, schema, objects, datafiles, log files, control files and archived files.   Reorganization of tables and their indexes of existing database to meet standards or improve performance.   Monitoring and managing Physical Standby database.   Basic knowledge of SQL server for backup and restoring database, user management.   Refreshed the database using RMAN.   RMAN and manual DB Cloning database (using both cold and HOT database backup) on various platforms.   Real Application Cluster   Real Application Cluster Installation   Installed Real Application Cluster on RHEL 6   Knowledge of Oracle Cluster Registry (OCR) and Voting Disk   knowledge about global resource directory (GRD) Oracle dba Datapatrol Technology Pvt Ltd - PUNE, MAHARASHTRA, IN July 2012 to December 2014 Responsibilities   Creating and managing Oracle 9i and 10g Databases on UNIX.   Support 24x7 Oracle Database.   Managing physical and logical structure of

database.　Configuration and managing Standby database.　Database cloning (Manual).　Backup and recovery of database, schema, objects, datafiles, log files and control files and archived files.　Monitoring database space requirements and adjustment for future needs.　Assign and manage privileges.　Performing both Physical and Logical backups.　Carry out logical backups using export and import utilities.　Tables and their indexes reorganization of existing database to meet standards or improve performance.　Monitoring and managing standby database.　Oracle DBA Exposure Oracle 10g, 9i　Database creation on UNIX.　Hands on with Oracle Export and Import tool (exp/imp and expdp/impdp).　Good exposure to Manual Recovery & Backup techniques.　Manual database Cloning.　RMAN Cloning.　Adding datafile, resizing datafile, movement of object into different tablespace to resolve space issue.　Renaming of datafiles, monitoring dataguard.　Backup of controlfiles (using trace), creation of controlfiles etc.　Backup and recovery of database, schema, objects, datafiles, log files and control files and archived files. Managing physical and logical structure of database.　Good exposure to manual backup and recovery technique.　Manage Physical Standby database.　Hands on with Installing Oracle 9i/10g on RHEL 4.5.　Can support 24x7 environments.　Understanding about how to work with Oracle Support to resolve issues.　Good exposure to Unix/Linux OS environments and tools.　Good understanding of RMAN backup and recovery techniques. Education BE Pune University 2012 Diploma Maharashtra Board 2009 S.S.C Maharashtra Board 2005 Additional Information Areas Of Expertise　DBA(Oracle 9i/10g/11g/12c)　SQL/PLSQL.　Oracle RAC Implementation.　Hadoop admin.　Jenkins &Autosys　Performance tuning　User Management　Shell Scripting GoldenGate　Dataguard　Oracle exadata knowledge
