Senior Front End Developer Senior Front End Developer Senior Front End Developer Boston, MA I ve been building website in various capacities for almost 10 years. My experience includes working at MineralTree, Inc., a start-up, Huge Inc., an agency, and also as a free-lance web developer. My expertise and interest are in front- end layout development, but I m also comfortable in middle-tier roles converting the prototypes I build into backend templates or building components for the latest JS frameworks. I especially enjoy making websites responsive for all views and accessible so everyone can use. Work Experience Senior Front End Developer MineralTree - Cambridge, MA August 2013 to April 2019 Build UX/UI prototypes for design and product testing for all content.
