Freelance Web Developer Freelance Web Developer Freelance Web Developer - OE Innovations San Diego, CA An ambitious, self-motivated, developer skilled in agile best practices, and multitasking in fast-pace environments. I've worked with clients to build complex web and mobile applications and tools. Currently looking for opportunities to contribute in data-driven platforms. Work Experience Freelance Web Developer OE Innovations 2016 to Present Designed and developed websites using HTML, CSS, Bootstrap, Ajax, Javascript, Jquery, PHP and MySQL. ? Built systems using PHP to automate processes, modify and manipulate data and sanitized and validate input. ? Examined and discovered Third Party APIs that allowed us to include extensive functionality without postponing deadlines. ? Architected 3NF databases using MySQL and MySQL Workbench. ? Formulated cron job scripts and placed them on the server to automate manual tasks. Php Developer Construction Service Workers February 2019 to June 2019 Engineered a relational database for a School Administration style system using MySQL and MySQL Workbench. The database was also normalized to the 3rd Normal Form(3NF). ? Implemented one form of database security by determining strict data type constraints on each column. ? Designed Use Cases scenarios to properly determine functionality to reduce as much potential problems during development. ? Examined and discovered potential problems with the application form due to its length. Improved the application by implementing live validation using HTML and ECMAscript. ? Sanitized and validated input and output to prevent any cross-site scripting or malicious intents. System Technician H&R Block December 2018 to April 2019 Install software, maintain systems operational and troubleshoot when software is conflicting or malfunctioning. Education San Diego Continuing Education Georgia Institute of Technology September 2017 to December 2018 San Joaquin High School August 2004 to July 2008 Skills Git, HTML, JAVASCRIPT, BOOTSTRAP, JSON, OBJECT-ORIENTED, OBJECT-ORIENTED PROGRAMMING, OOP, PHP, LARAVEL, XML, DATABASE, DATABASE DESIGN, MYSQL, AJAX, CSS, nginx, MVC, jQuery, CMS Links https://www.linkedin.com/in/oscar-estrada-6a7b58132 Additional Information Technical Skills Frontend Technologies: HTML, Bootstrap, CSS, Javascript/ECMAscript, Jquery, Ajax, JSON, XML Backend Technologies: MySQL, PHP, Laravel, RESTful API's, Nginx, Apache, Linux CMS and
