STORE MANAGEMENT APPLICATION -- With over 1,000 California wide Verizon Stores, Verizon required a robust Store Management Application to manage all the stores. Built on React, Node, integrated with multiple Verizon API s and sitting on AWS is an application that can fully manage all aspects of any Verizon Store, this includes store maintenance, audits and finding nearby contractors and much more. ENVIRONMENT ---------------------- React, Redux, Express, Node, Javascript, JSON, HTML5, CSS3, AWS, Verizon API s, Google Maps, Photoshop, Git, Agile, Webpack, RESTful API s, Jest/Enzyme. Full Stack Web Developer Verizon - San Jose, CA November 2012 to August 2015 CUSTOMER RETENTION TOOL -- There are times when customers want to switch from Verizon to T-Mobile or another service provider, this is where our Customer Retention Tool comes into play. Built on a custom PHP framework supported by JavaScript and very easy to use UI/UX interface, it s a tool Verizon Customer Service Reps rely on every day to keep customers using Verizon services. ENVIRONMENT ---------------------- PHP, Vanila JavaScript / JQuery, AJAX, MySQL, JSON, HTML, CSS, Verizon API s, Google Maps, Photoshop, Git, Agile. Full Stack Web / WordPress Developer UENO - San Francisco, CA May 2006 to October 2012 RED BULL, FITBIT AND DROPBOX -- I started my career working at ueno because I wanted to learn from an agency who has a track record going above and beyond. I was given an opportunity to work on some amazing well-known brands such as Red Bull, Fitbit and Dropbox. As a developer at ueno, we create unique experiences based on customer data and analytics to deliver products that solve real world problems. ENVIRONMENT ---------------------- PHP, MySQL, HTML, CSS, JavaScript, JQuery, AJAX, WordPress, Joomla, Codeignitor, Yii Framework. Education Bachelor's in Computer Science San Francisco State University - San Francisco, CA September 2002 to April 2006 Skills React.js (4 years), HTML5 (10+ years), Javascript (10+ years), MongoDB (4 years), JSON (6 years), jQuery (6 years), PHP (10+ years), User Interface (10+ years), RESTful Web Services (6 years), AngularJS (5 years), Drupal (6 years), Bootstrap (5 years), Bash (10+ years), Apache (10+ years), Databases (10+ years), AJAX (7 years), Git (5 years), React Native (1 year), Node.js (2 years), Redux (2 years), Vue.js (1 year),
