I met weekly with my team to both discuss the website's progress and to bring new ideas to the table.   I also assisted with development and design of the company's main website where I created a minimalistic blogging engine for easy publication of articles. Web Developer/Designer Natural Offerings LLC - Hartford, WI January 2013 to February 2013 Throughout the job, communication with the client was absolutely necessary. I started out obtaining all of the project requirements and then had meetings with the client to make sure that the project was in fact meeting expectations.   As the project was a website, I worked with various web-related technologies, such as HTML, CSS, JavaScript, and PHP. Adobe Photoshop was also used for working with images that were placed on the website.
