Vice President/Sr. Front- End Developer Vice President/Sr. Front- End Developer Vice President/Sr. Front- End Developer - J.P. Morgan Chase Piscataway, NJ ? 10+ years of overall IT experience and 8+ years of experience as a Front End Web Developer using web technologies such as HTML, CSS, JavaScript, Angular 2/4. ? Experience with many JavaScript frameworks and libraries like jQuery, jQueryUI, Handlebars, Angular. ? Experience rendering page designs (wireframes/visual designs) into web pages (HTML, CSS, images, JavaScript). ? Experience with data visualization libraries such as D3.js and Chart.js. ? Very good experience in Document Object Model (DOM) manipulation and dynamic contents. ? Experience in developing interactive page features using JavaScript libraries and custom code. ? Experience with CSS frameworks (Bootstrap & Foundation) and CSS pre-processors (SASS & LESS). ? Experience with AMD and RequireJS for code organization and optimization. ? Sound knowledge of multiple version control tools like GIT and SVN. ? Solid understanding of Responsive Web Design with the use of media queries and CSS frameworks. ? Experience in complete Software Product Development Life Cycle within Agile environment. ? Experience with JSMin and YUI Compressor for performance tuning. ? Sound knowledge in working with browsers compatibility issues with browsers like IE, Firefox, Safari , Chrome. ? Complete knowledge of Agile methodology (sprints, tasking sessions, pointing sessions, retrospectives). ? Great ability to write clear, maintainable, well-documented, well-commented and efficient code for web development. ? Ability to learn new and evolving technologies quickly and implement them. ? High attention to detail and ability to work and manage files in an extremely organized manner. ? Ability to work with minimal supervision on short-term or long-term projects. Authorized to work in the US for any employer Work Experience Vice President/Sr. Front- End Developer J.P. Morgan Chase - Jersey City, NJ September 2017 to Present Developed internal email portal using Angular 2/4, HTML, CSS, JavaScript and Bootstrap 3. ? Currently working on redesign JPMorgan Online (JPMOL) where Private Banking clients can manage their wealth and access their investment. ? Utilized AG-Grid to implement server side pagination, search, filter and sort. ? Using SASS to maintain modular and reusable CSS code with the use of partials and mixins. ? Work closely with UX team and Product teams to ensure delivery of a quality product.

? Ensure code follows best coding practices and is fully ADA compliant. ? Experience using Webpack for bundling and minifying JavaScript and CSS files. ? Manage bi-weekly releases to UAT and Production environments. ? Used Jenkins for continuous integration of the application. ? Developer end-to- end test cases using Protractor and Karma. ? Involved in complete SDLC - Requirement Analysis, Development, System and Integration Testing. ENVIORNMENTS: ANGULAR 2/4, JAVASCRIPT, JSON, JAVA, AGILE, AJAX, CSS3, HTML5, BOOTSTRAP 3, RESPONSIVE, SASS, HANDLEBARS, SVN, NODE. Front- end Developer Vonage - Holmdel, NJ August 2016 to August 2017 Redesigned Vonage.com site using HTML5, CSS3, JavaScript and jQuery. ? Developed Responsive pages with the use of Bootstrap 3 to provide an optimal viewing experience across a wide range of devices. ? Utilized Gulp to automate tasks and minify JS and CSS files. ? Used Handlebars, TWIG and YAML for templating and segregating static content out of the HTML file. ? Worked with PHP and WORDPRESS for website redesign in order to allow marketing team the flexibility to update content. ? Assured proper SEO guidelines were followed as part of SEO Optimization. ? Used SASS to make CSS more modular with the use of partials and mixins. ? Extensively involved in design discussions and user experience sessions to provide inputs on the layouts and UX. ? Used Photoshop to analyze PSD's and convert them into HTML pages for wiring ? Used Angular 1.5 and created custom directives such as breadcrumbs using Angular UI Router. ENVIORNMENTS: ANGULAR, JAVASCRIPT, JQUERY, JSON, PHP, AGILE/SCRUM, AJAX , CSS3/2, HTML5/4, BOOTSTRAP, RESPONSIVE, SASS, HANDLEBARS, SVN, NODE. Front- end Developer CVS Pharmacy/Caremark - Florham Park, NJ August 2015 to May 2016 Built UI views using Javascript, jQuery, AngularJS, HTML, CSS and SASS. ? Involved in developing the Validations across the application using AngularJS ? Redesigned homepages and landing pages while making them fully responsive and compatible with all major browsers. ? Tested and debugged code across browsers (IE 8-11, Chrome, Safari, Firefox), phones (Android/iPhone), tablets (Android). ? Optimized the Pages as much as possible to follow best practices in Front End Development. ? Performed a lot of DOM manipulation using native JS and jQuery for loading and manipulating dynamic content on webpages ? Used AJAX with JQuery to

parse JSON object to dynamically overlay contents on web pages. ? Co-ordinate with QA for testing, Production releases, Application deployment and integration. ? Aided back end development team (Java developers) with coding changes to front end widgets to work together. ? Worked with Mobile campaigns, which work both on IOS and Android. ? Leveraged media queries capabilities in CSS3 to allow the application to be rendering to different viewport of different mobile devices and browsers ? Hand coded various user experiences for cvs.com, cvscaremark.com and silverscript.com. ? Used Sketch to convert Sketch designs into HTML pages for wiring. ? Leveraged SharePoint to store, organize, share and access project related information. ? Used Monetate as the CMS tool for enhancements, redesigns and to collect analytic data for each test on the live production site. ? Monetate test ranged from creating simple banners to a complete redesign. ? Used FlexSlider for rotating carousel. ENVIORNMENTS: ANGULARJS, AGILE/SCRUM, AJAX , CSS3/2, HTML5/4, JAVA, JAVASCRIPT, JQUERY, JSON, RESPONSIVE, SKETCH, MONETATE, SHAREPOINT. UI Developer Scholastic Inc - New York, NY November 2014 to July 2015 Involved in different phases of system implementation such as Front- End Research and Development, Integration, Bug Fixing and Launch & Maintenance. ? Converted existing shipping & payments page from jQuery to AngularJS. ? Utilized AngularUI and jQuery Tools to achieve various functionalities such as modals and tooltips. ? Responsible for transforming design mock-ups to W3C standards compliant HTML pages using HTML5, XHTML, CSS3. ? Used AJAX with JQuery to parse JSON object to dynamically overlay contents on web pages ? Utilized D3.js for displaying customer data on customer dashboard. ? Worked in an agile workflow, while practicing proper source control under Git and SVN systems. ? Participated in pointing session and tasking session beginning of every sprint. ? Leveraged internal CMS system (TeamSite) to publish web content ? Used JIRA for project management and Mercury for bug tracking ? Worked on Browser Compatibility and tested each and every web application on popular web browsers such as Internet Explorer, Firefox, Safari, Opera and Chrome. ENVIORNMENTS: ANGULARJS, ANGULAR-UI, JQUERY TOOLS, AGILE/SCRUM, AJAX , CSS3/2, HTML5/4, JAVA, JAVASCRIPT, JIRA, JQUERY, JSON, RESPONSIVE, SVN, UI Developer McFadyen IT Solutions - Vienna, VA

March 2014 to November 2014 Projects: Teleflora (eFlorist)/ACCO/Harmon Kardon ? Performed full development life cycle of products features using HTML, CSS, JavaScript and jQuery. ? Used JavaScript for writing various timer controlled scripts for the website, including from page validations, dynamic content and roll over and working in an Object Oriented approach. ? Coded Java Script for page functionality and Pop up Screens. ? Used SASS to keep CSS well organized and maintainable ? Used Photoshop to analyze PSD's and convert them into HTML pages for wiring ? Used jQuery for animations such as fade in/out, carousel for rotating images and for DOM manipulation. ? Used AJAX with JQuery to parse JSON object to dynamically overlay contents on web pages ? Used bootstrap and media queries to achieve responsive design ? Extensively used HTML and CSS to create more than 50 different seasonal based themes for the website ? Used Atlassin JIRA for project management and bug tracking ? Used Handlebars for templates used for promotions ? Created customized pages for partners and various florists ? Used Modernizr to detect browser compatibility with HTML5/CSS3 features ? Ensured every page was compatible with all major browsers including IE8/9 ENVIORNMENTS: AGILE/SCRUM, AJAX , CSS3/2, GIT, HTML5/4, JAVA, JAVASCRIPT, JIRA, JQUERY, JSON, RESPONSIVE, SASS, Oracle 11g Weblogic Server, SVN, Front- End Developer Brooks Brothers - New York, NY January 2013 to January 2014 Developed rich user interface using AJAX, JavaScript, jQuery, HTML and CSS. ? Worked closely with Business Analysts in understanding the technical requirements of the project. ? Created the Configurator system for shirts & suits category which revolutionized the way of wearing suits. ? Embedded various social media into the website like FB, Twitter and Google+. ? Responsible for updating the Landing Pages for desktop and responsive using HTML4/5, CSS and Object Oriented JavaScript. ? Responsible for creating the first magazine for Brooks Brothers consisting of various effects using JQuery, HTML and CSS. ? Wrote extensive HTML/HTML5, CSS3, and JavaScript code to build dynamic pages using Eclipse IDE. ? Built the JavaScript functions to manage forms, database connections, error management, permissions, reporting. ? JavaScript and CSS compression using YUI Compressor. ? Improved performance of the webpages and overall website by following best practices. ? Created and tested scripts using

JQuery on various browsers Chrome, Firefox, Opera, Safari and IE.   ? Used various CSS frameworks including Twitter BootStrap and jQuery UI. ? Used Subversion as the versioning tool ? Monitored and resolved bug fixes using BugZilla.   ENVIORNMENTS: AGILE/SCRUM, AJAX , ANGULAR.JS, APACHE, CSS3/2, GIT, HTML5/4, JAVA, JAVASCRIPT, JIRA, JQUERY, JSON, RESPONSIVE, TOMCAT. Web/UI Developer Dotlogics.com - Great Neck, NY July 2011 to December 2012 Front- end web development utilizing HTML/HTML5, CSS/CSS3 and JavaScript for interactive and responsive web pages. ? Implemented drag and drop operations, HTML, DOM effects, animations like slide shows, fade in-fade out effects on the web pages. ? Worked with AngularJS to create properly architected and maintainable web applications. ? Used LESS CSS to simplify CSS development & maintenance. ? Written code for web compatibility, optimization, configuring the viewport, designing forms, creating videos and getting the geographic location. ? Built component library to be used on all future projects ? DOM manipulation for various websites ? Used AJAX, JSON, JSONP etc, for implementing various dynamic functionalities on web pages. ? Monitored and resolved bug fixes using tools such as JIRA and Trac. ? Used Rotator.js for additional effects on homepages. ? Used AMD (Asynchronous Module Definition) and RequireJS (loader) to make code modular and improve performance by bypassing synchronous loading of modules. ? Handled client side validation using JavaScript and jQuery. ? Used Firebug, IE Developers Toolbar and Firebug Lite for debugging and assuring browser compatibility. ? Used CSS Sprites to apply the images created using Photoshop to reduce the number of HTTP requests ? Converted annotated visual designs (Photoshop) to web pages and associated assets (HTML, CSS, images, JavaScript). ? Used SVN and Git for version control systems & code reviews. ENVIORNMENTS: AGILE/SCRUM, AJAX , ANGULAR.JS, APACHE, CSS3/2, GIT, HTML5/4, JAVA, JAVASCRIPT, JIRA, JQUERY, JSON, JSP LINUX, PHP, RESPONSIVE, SQL, SVN, TOMCAT, TRAC, WINDOWS, .NET. Web/UI Developer American Express - New York, NY August 2010 to May 2011 Developed web pages using JavaScript, JQuery, Ajax, CSS and HTML. ? Coded Java Script for page functionality and Pop up Screens. ? Developed Tabbed pages using AJAX and JSON for quick view of related content, providing both functionality and ease of access to the user

? Used Firebug, Firebug Lite, IE Developer Toolbar, for debugging and browser compatibility. ? Designed lot of pages & components with HTML & CSS ? Generated many good looking reports. ? Added JavaScript filtering ability for reports. ? Created charts using jqPlot. ? Major work was with maintenance of the existing site. ENVIORNMENTS: AJAX , BUGZILLA, CSS, HTML, JAVASCRIPT, JQUERY, JSON, SVN. Web Analyst Palmer Trading - New York, NY July 2008 to July 2010 Online share trading system, application to provide the experiences to the end users. ? Created forms using ASP.net. ? Enabled Voice Chat using Sockets ? Involved in Portal application design and modeled the application in MVC ? Client/Server Monitoring. ? Designed all pages in HTML, CSS, JavaScript. ? Involved in the design and development of User Profile planning for those accessing the system ? Active coder in building the comprehensive solution model (Interfaces and Business Logic) dealing with the work flow and transportation issues. ? Enabled the Geographic Information System(GIS) using ASP.net ENVIORNMENTS: AJAX, ASP.NET, JAVA, JAVASCRIPT, AJAX, SVN, HTML, CSS, MSEXCEL. Risk Data Store (RDS)/Java Developer Nomura Securities - Manhattan, NY February 2007 to March 2008 Description: ? Studied the scope of the Project and scaled the estimates with the Design Team. ? Effectively interacted with Design Team members, and contributed to LL Design and Interaction Sequence Flows. ? Implemented the Model View Control (MVC) design pattern using JSP, Servlets, and JavaBeans to control the flow of the application in the Presentation/Web tier. ? Used Log4J to logging, debugging, and providing warning and info on the server console. ? Designed and developed application using AGILE/SCRUM methodology. ? Written configuration scripts to setup the account information for various data transformation processes. ? Gather business requirements, design and document technical design for the business requirements. ? Involved extensively in OO analysis/design and generated Class, Sequence diagrams for designing using UML, OOAD, and Design Patterns. ? Developed DAO based Java Beans and Utility Classes for interacting with the database using JDBC. ? Used SQL statements and procedures to fetch the data from the database. ? Using team track, defect tracking system for reporting defects and requesting builds. ? Involved in coding JUnit test cases for unit testing and performed integration testing. ENVIORNMENTS: SDLC,

AGILE/SCRUM, UML, OOAD, DESIGN PATTERNS, CORE JAVA, COLLECTIONS, HIBERNATE, ECLIPSE, CVS, ANT, JUNIT, SQL, WINDOWS, UNIX. Education Bachelor's Skills Javascript, Front End, UI, Front-End, Angular
