Lead UX Designer & Front- End Developer Lead UX Designer & Front-End Developer Lead UX Designer & Front- End Developer North Hollywood, CA Experienced UX Designer with a strong Front- End Development background. Passionate about user-centric design, and the elegance of simple design. Being a UX Designer and a Front- End Developer enables me to design while being aware of programming requirements and limitations for each project, provide accurate estimates, foresee potential problems, and determining development approach and strategy.   Over 10 years experience leading and managing projects and production teams, delivering quality work on-time, and within budget. Excellent organization, communication, and client-relation skills. Able to work as a productive member of a team, as well as independently/remotely. Authorized to work in the US for any employer Work Experience Lead UX Designer & Front- End Developer Techone Group LLC - San Diego, CA January 2010 to Present   Experienced in all stages of UX life cycle, and the SDLC. Responsible for the product roadmap, vision, direction and execution.   Experienced with user-centric designs, object-oriented development, user research and analysis, and project documentation.   Experienced Debugging code. Beta-tested software functionality, and cross-platform design and development compatibility.   Experience interacting with clients and groups, to define objectives and specifications, define personas, and project costs.   Engaged closely with the team to determine design strategy, best technical implementation methods and production schedule.   Created high-fidelity interactive prototypes using Axure, OmniGraffle, Indigo, InVision, Figma, Sketch, Balsamic, and Gridbox.   Well versed in collaboration software (Realtime Board, Slack, Trello, Jira, Figma)   Experience with core concept development, creating IA schematics, process flows, wireframe & design mockups, navigation maps, wireframes, definition of personas, affinity diagrams, interactive prototypes for different usage scenarios, user journeys, & responsive UI design for web & mobile apps using HTML5, CSS3, XHTML, XML, JavaScript, AngularJS, ReactJS, JQUERY, JSON, AJAX, Python, meeting W3C standards. I bring a unique eye for detail, creativity & innovation to the UX Design process, ensuring features will drive high adoption and customer delight.
