Sr. Software Developer Sr. Software Developer Sr. Software Developer - Richard Rocuant Jersey City, NJ   A Self-motivated Senior Application Developer with 8+ years of strong professional Microsoft Technologies development experience in various applications as data driven systems, Web applications with N-tier architecture with Healthcare, Banking domains.   Strong in the complete Software Development Life Cycle (SDLC) including Analysis, Requirements Definition, Designing, Programming, Reviews, Testing and Implementation of major systems along with User Training experience and interaction with Business analysts   Expertise in Design Patterns, Agile and Waterfall, Iterative Process methodologies and SOLID principles.   Experience in designing complex applications using Object Oriented techniques in preparing UML Diagrams like Use Case Diagrams, Class Diagrams etc using Microsoft Visio.   Expertise in the Design, Development and Deployment of N-tier, Client Server applications using C#, ASP.NET, ADO.NET, AJAX, XML/HTML, XSLT, JavaScript, JSON, Bootstrap.   Experience in working with MVC, HTML5, CSS3, JQuery, Angular JS, Web services, MVVM, Win forms, Web Forms, Entity Framework, WCF and Web APIs.   Experience in creating Rest Services using ASP.NET Web API and C# and consuming them.   Extensive experience in writing Queries, Stored Procedures, Indexes, Triggers, Views, Schemas, T-SQL, Performance Tuning with SQL Profiler and Tuning Wizard with SQL Server database.   Experience in DTS, SSIS Packages, Scheduling Jobs, workflow design, SSRS, Crystal Reports.   Proficient in version controls tools:TFS (Team Foundation Server), VSS (Visual Source Safe) and GIT   Extensively well versed with Service Oriented Architecture (SOA) with WS* standards.   Experience with Microsoft Application Blocks, Unity, Kendo UI, Telerik controls   Knowledge with WPF using XAML to create attractive user interface.   Experience working with HL7 interfaces and HIPPA Standards.   Expertise in writing test cases covering all the possible scenarios and automate them at all levels of testing like unit, integration, Functional, Compatibility and Defect Management.   Very Good Team Player with Focused/Committed, Highly organized and able to work independently, self-motivated and fast-learner as well. Authorized to work in the US for any employer Work Experience Sr. Software Developer Richard Rocuant - Arnold, MO December 2017 to Present Responsibilities: Working with Business Analysts and users to collect and analyze

requirements and helped in preparing BRDs and in preparing some Proposal documents. Designed and Developed Dashboards with quick view to access and maintain books, folders, albums, files user friendly way and responsive UI with HTML5 and Angular JS with bootstrap and Kendo Controls   Completed Decoupled components with Model View Controller (MVC) with Web API, WCF Services, and Entity Framework, C#.   Implemented Angular JS application to follow strict MVVM/MVC patterns for improved source code maintenance, 25% code reduction, ease of upgrade, scalability, ease of developer spin up, enhanced performance and offline with client caching with OOPs in C#, ASP.Net.   Use Cases, Class Diagrams, TDD with use cases, Design documents, Code Reviews   Established communication between different applications running on same/different platforms using Windows Communication Foundation (WCF) exposing various endpoints.   Injected various services like $http and custom services on a need basis. Implemented Angular Filter for Searching data on the client data   Implemented Global Error Handling and Model Validation and auditing at each level.   Lead and mentor developers thru training and knowledge sharing sessions, conducting interviews.   Good experience in Agile (Scrum) methodology environment, daily task sheet and project execution in iterative manner, and process improvement proposals.   Environment: .Net 4.5, C#, web forms, Kendo Controls, Angular JS, bootstrap, ASP.Net, HTML5, CSS3, Entity Framework, MVC, XML/SOAP, WCF Services, Restful APIs, MS Visual Studio.NET, winforms, windows service, RAD PDF, gem box, tinyMCE, MySQL. Sr. Software Developer The Most Group, Inc - Southfield, MI March 2015 to November 2017 Responsibilities: Developed interfaces with a Quick view Dashboards with access to various features all in one place for various modules with OOPs in C#, ASP.Net.   Various SOA WCF Services with various bindings and consuming the services from web and desktop applications are developed. MVC with Web APIs with Ajax calls.   Developed Centralized scheduling and front-end data capture customized to each location and specialized function throughout the healthcare network.   Extensively implemented various Design patterns like Singleton, Factory Patterns, and etc   Various Automated Reports can be generated throughout the system that links to administration.   Lead and mentored developers thru training and knowledge sharing sessions

Environment:.NET 4.0/3.5, ASP.NET 3.5, C#, ADO.NET 3.5, MVC, MS Visual Studio.NET 2010/2012, Webforms, XML, XSLT, JavaScript, CSS, LINQ, Ajax, Application Blocks, SQL Server 2008, IIS 6.0/7.0 Sr. Software Developer Medwrite Inc January 2014 to February 2015 Responsibilities: Developed Billing Module for various incoming outgoing call management. Automated Billing processes for various sources like incoming, outgoing and call management reports. Extensively implemented various Design patterns like Singleton, Strategy, Observer, and Factory Patterns etc Designing and developing custom solutions and enhancements using ASP.NET, AJAX and C# and JavaScript. Environment:.NET 4.0/3.5, ASP.NET 3.0/3.5, C# 3.5, ADO.NET 3.5, MS Visual Studio.NET 2008/2010, Winforms, Webforms, WCF, XML, XSLT, JavaScript, LINQ, Ajax, Application Blocks, Telerik, SQL Server 2005/2008, IIS 6.0 Sr. Software Developer Bank of America January 2013 to December 2013 Terminal Server & SQL Server Upgrade:- Database is migrated to SQL 2005 and Terminal Servers are upgraded. As part of this up gradation various interfaces, applications, Web Services, Web Applications, DTS Packages, Jobs etc Developed Project: Overdraft OptIn OptOut OSFS is Online Sales Fulfillment System part of Online Deposit Contacts Center. SFS provides a platform to process the Account Opening Requests from customers, which use various channels. Responsibilities: Understanding the business requirements of the existing systems Majorly involved with Migration Process from VB, COM components, asp pages to .net class libraries, user controls, and shared assemblies. With SharePoint Managed project tasks and assigning to team members, maintained status updates Managed a team assigning tasks, one-one discussions, Process improvement proposals Developed various Interfaces with OOPs concepts in C#, ASP.Net, developed and consumed Web services to retrieve values. Environment: VB, VB.NET, .NET 3.5/2.0/1.1, ASP.NET 3.5/3.0/2.0, VB.NET, C# 3.0/2.0, ADO.NET 3.0/2.0, MS Visual Studio.NET 2008/2005, PL/SQL, XML, XSLT, Java Script, XHTML, LINQ, SQL Server 2005/2000, SharePoint, IIS 6.0, Visio, TFS, FXCop Sr. Software Developer Medwrite Inc April 2011 to December 2012 Responsibilities: Migrated existing legacy asp application to .Net with rich user interface using WPF with XAML and XHTML, Java script and Web server controls like dropdown list, Image button using OOPs concepts in C#,

ASP.Net. Generated various customized reports with simple clicks. Created Generate Invoice WCF service and consuming the same from Asp and Aspx pages Environment:.NET 3.5, ASP.NET 3.0, C# 3.0, ADO.NET 3.0, MS VS .NET 2008, Winforms, Webforms, WCF, WPF, XML, XSLT, JavaScript, LINQ, Ajax, Application Blocks, SQL Server 2005, IIS 6.0, ABCPDF, Pegasus ImageXpress Sr. Software Engineer CITIBANK - Los Angeles, CA June 2010 to March 2011 Responsibilities: Worked on Inter Process communication using Message Queues with multithreaded programming Involved in Synchronization using Multithreading functionality in C#.Net. Troubleshooting Production server issues and fixed com components building with Visual Basic. Worked as a Build Manager for Production issues Environment: VISUAL BASIC (VB), COM, C++, .NET 3.5/2.0, ASP.NET 3.0/2.0, C# 3.0/2.0, ADO.NET 3.0/2.0, MS VS..NET 2005, PL/SQL, XML, Java Script, SQL Server 2005, Oracle 8i, Cygwin, IIS 6.0, Visio Software Developer Kirthi Bangalore Viswanath - Fremont, CA June 2009 to May 2010 Responsibilities: Business Tier, Data Tier was developed with various modules in C#, ASP.Net. User Authentication is handled by validating the user against domain authentication (Active Directory). Environment: C# 1.1, ASP.NET 1.1, ADO.NET 1.1, MS Visual Studio.NET 2003, Web Services, PL/SQL, SQL Server 2005, IIS 6.0, Windows 2003 Server. Education M.C.A in Master of Computer Applications Nagarjuna University 2000 B.Sc. in Bachelor of Computer Science Nagarjuna university Skills .NET (8 years), ASP (8 years), ASP.NET (8 years), C# (8 years), MS ASP (8 years), Java, C, Python, AWS, Linux Additional Information TECHNICAL SKILLS: NET Technologies ASP.NET, VB.NET, C#, ADO.NET, WCF, LINQ Web Development ASP, COM, XML, HTML, XHTML, DHTML, CSS, XSLT, VB Script, JavaScript, Ajax, JQuery, WCF, WPF, XAML, Angular JS, Bootstrap Reporting Tools: SQL Server Reporting Services, Crystal Reports Process Methodologies Agile with Scrum, Iterative, Design Patterns, SOLID Principles. Languages VB 6.0, C++, VC++, Java, SQL, PL/SQL, T-SQL, .Net, C# Databases SQL Server, Oracle 8i, MS Access, MySQL Middleware ADO.NET, ADO, Web Services, Enterprise Library, Entity Framework, LINQ to SQL Version Control VSS, Rational Clearcase, TFS Operating Systems Windows NT/2000/XP/ 2003, Windows 7 Server, UNIX, LINUX
