Network Engineer Network Engineer Network Engineer - Apex Systems/CSRA Inc/Raytheon Pensacola, FL Authorized to work in the US for any employer Work Experience Network Engineer Apex Systems/CSRA Inc/Raytheon - Pensacola, FL November 2016 to Present   Conduct lifecycle support and configuration management for two multivendor enterprise networks consisting of Cisco & Juniper routers, switches, and firewalls.   Identified and removed deprecated firewall policy objects and rules to streamline future policy implementation.   Designed and implemented Juniper firewall cluster and VPN solution to securely extend customer services to new site. Systems Security Engineer RCM Technologies - Mobile, AL December 2015 to November 2016   Implemented a centralized multi-context firewall to replace individual firewall clusters within the chemical park in order to improve security and ease-of-management.   Worked with Plant Engineers and the production IT team to revise existing non-compliant network security policy in to a company-compliant network security policy.   Hardened all firewall system and policy configurations to meet compliance guidelines set by the company. Network and Systems Engineer Hulcher Services - Denton, TX June 2015 to November 2015   Hardened the corporate network environment by restricting management access to secure protocols.   Analyzed current corporate VLAN assignment; implemented new VLAN assignment based on best-practice and corporate policies. Replaced/upgraded Cisco Nexus fabric switches for virtual environment connectivity at the corporate office and co-locations.   Implemented a RADIUS server to permit centralized Active Directory-based authentication services on all switches within the infrastructure. LAN Technician HX5 LLC - Pensacola, FL October 2014 to May 2015 Replaced domain controllers, file servers, and print servers within a hospital environment. Network Engineer Consultis of Central Florida - Orlando, FL September 2013 to October 2014   Performed ACL modifications to allow connectivity from multiple departments to critical network resources.   Responsible for the oversight and coordination of new hospital campus wireless implementation; project completed two weeks ahead of schedule because of coordination efforts. Intermediate Boundary Protection Specialist/DNS Administrator DoD / Air Force - Montgomery, AL March 2012 to September 2013   Migrated network security policy from Cisco FWSM and McAfee Sidewinders to Palo Alto Next-Generation Firewalls.

Created tertiary gateway entries within the DNS environment for each Air Force base. Education MS in Cybersecurity and Information Assurance in Chemical Park Western Governors University - Salt Lake City, UT December 2015 to November 2017 BS in Information Technology in Security Western Governors University - Salt Lake City, UT November 2013 to October 2015 AAS in Computer Information Systems in Computer Information Systems Lurleen B. Wallace Community College - Andalusia, AL August 2006 to August 2008 Skills Cisco (4 years), firewalls. (3 years), Juniper (2 years), network security (2 years), Security (4 years) Links https://www.linkedin.com/in/marvin-murphy-29b58728 Additional Information TECHNICAL SKILLS
