Front- end Developer Front-end Developer Raleigh, NC I'm a self-taught programmer with a fondness for Javascript and 6 years of professional experience. I believe creative design reveals itself with understanding. Work Experience Front- end Developer VoiceThread December 2015 to March 2019 A VoiceThread is a collaborative, multimedia slideshow that holds images, documents, and videos and allows people to navigate slides and leave comments in several ways - text, voice, audio file, or webcam.   Accomplishments ? Rewrote frontend toolset adding support for SSL, API proxying, streamlined builds and a design system for reusable components. ? Created next-gen product. Worked with designers to implement new design inspired by Material-UI. ? Started a successful initiative to automate quality assurance using WebdriverIO ? Maintained and built on several large Backbone.Marionette based single page applications. ? Maintained and built on a large, mostly from-scratch PHP codebase.   ? Rewrote all public facing marketing pages implementing a new responsive design. CTO VoiceThread May 2017 to August 2018 Sonder is a B2B enterprise software company that is improving the way universities manage their study abroad programs through data-driven insights.   Accomplishments ? Built a fully tested JSON API on Node, Express, PostgreSQL and Elasticsearch hosted on Heroku. ? Integrated with Google Places API and Cloudinary. ? Screened, interviewed and onboarded frontend candidates.   Full-stack Dev @ Fragment { June 2013 through December 2015 }   Fragment is web development company that serves over a dozen active clients. I created and maintained different projects simultaneously. Working at a small company with a large client list allowed me learn a wide variety of technologies. Accomplishments ? Maintained the Beatport codebase for a period of 8 months. ? Introduced PHPUnit into the development process. ? Automated front- end asset pipelines by introducing Grunt. ? Improved Javascript architecture by introducing Browserify. ? Prepared development team for PHP7 by giving weekly presentations about individual RFCs.
