Education B.Tech GMR Institute of Technology - Razam, ANDHRA PRADESH, IN 2008 to 2012 Links https://www.visualcv.com/bharathkumar Additional Information Proficient in HTML5, CSS 3, Javascript, AJAX Well versed with modern Javascript libraries - Jquery. Well Experience in Handling With Frameworks - Bootstrap 3, 4, Foundation 5, 6. Adept in using Front End frameworks

- Angular 2,4,6   Keen understanding of responsive design principles   Experienced in using Functional and Unit Testing methods   Creative problem solver   Possess a knack for teamwork and comfortable working cross functional   Skills   HTML/CSS   Bootstrap,Foundation,   Build a website from scratch, many frameworks are available for   Material UI Frameworks   designers and developers. Frameworks are used to consolidate the   design process of a project.   Javascript JavaScript (JS) is a lightweight interpreted or just-in-time compiled   programming language with first-class functions. While it is most well-   known as the scripting language for Web pages   JQuery jQuery is a JavaScript library designed to simplify HTML DOM tree   traversal and manipulation, as well as event handling, CSS animation,   and Ajax   Angular 2, 4, 6.   Angular is a TypeScript-based open-source web application framework   led by the Angular Team at Google and by a community of individuals   and corporations.   Ajax Calls, JSON   JSON with Ajax. According to the AJAX model, web applications can   send and retrieve data from a server asynchronously without   interfering with the display and the behavior of the existing page.   Cross-Browser   Cross-browser compatibility is the ability of a website or web   Compatibility   application to function across different browsers and degrade   gracefully when browser features are absent or lacking   Azure Git   private Git repositories and code collaboration in the cloud.   Create Git pull requests and review code with Azure Repos, formerly on   Visual Studio Team   https://www.visualcv.com/bharathkumar/   RWD   Responsive web design is an approach to web design that makes web   pages render well on a variety of devices and window or screen sizes.   Css Preprocessors   A CSS preprocessor is a program that lets you generate CSS from the   preprocessor's own unique syntax. Sass. LESS.   Projects   Project #9 RECRUIT (Vultus)   Role UI Developer   Involvement   An all-around workforce management solution tailor-made for you. Manage your Employee   Database, Time, Benefits, Documents Management, and Expense Management all in one   place. Ensure legal compliance with utmost confidence and ease. Cash Flow - Monitor and   Forecast it like never. We help you make strategic and confident business decisions by giving   you actionable data points, sensible analytics, and centralized financial information.   Responsibilities: Advanced HTML5, CSS3 For Building responsive Web Page.   Used Foundation Framework for Building this application.   Providing Better UX/UI to

Compete with Competitors   Functionality Client-Side Validations by Using JavaScript. Cross-browser functionalities.   Event-handling, Animations with J Query.   Designing Email Templates Practical Experience in Maintaining search engine optimization (SEO). Attending Client Meetings and development by their requirements. Task Followed by KT which is done every Week based on Components Restructure.   Methodology Agile Flow Of methodology System GIT. Azure Dev-ops Software & Servers Development Visual Studio 2017 tools Technologies Azure Dev-ops, HTML5, CSS3, J Query, C#, Asp.net and Bootstrap Framework   Project #8 Connect (Vultus) Role UI Developer   https://www.visualcv.com/bharathkumar/ Involvement   An all-around workforce management solution tailor-made for you. Manage your Employee Database, Time, Benefits, Documents Management, and Expense Management all in one place. Ensure legal compliance with utmost confidence and ease. Cash Flow - Monitor and Forecast it like never. We help you make strategic and confident business decisions by giving you actionable data points, sensible analytics, and centralized financial information.   Responsibilities: Advanced HTML5, CSS3 For Building responsive Web Page. Used Foundation Framework for Building this application. Providing Better UX/UI to Compete with Competitors Functionality Client-Side Validations by Using JavaScript. Cross-browser functionalities.   Event-handling, Animations with J Query.   Designing Email Templates Practical Experience in Maintaining search engine optimization (SEO). Attending Client Meetings and development by their requirements. Task Followed by KT which is done every Week based on Components Restructure.   Methodology Agile Flow Of methodology System GIT. Azure Dev-ops Software & Servers Development Visual Studio 2017 tools Technologies Azure Dev-ops, HTML5, CSS3, J Query, C#, Asp.net and Bootstrap Framework   Project #7 DST-AWD Reengineering Role UI Developer Involvement An Internal application for a client Migrating From CPP To Java Platform. It has 9 Components In Which I Used to design and develop front end, It compares Old Database To newer One and Approves The data through Different Process Types. I Used advanced HTML5, Bootstrap, CSS3, and J Query AJAX.   Responsibilities: Advanced HTML5, CSS3 For Building Web Page. Functionality Client Side Validations by Using JavaScript. Cross-browser functionalities. Event-handling, Animations with J Query. Practical Experience in

Maintaining search engine optimization (SEO). Attending Client Meetings and development by their requirements. Task Followed by KT which is done every Week based on Components Restructure.

Methodology Agile Flow Of methodology System GIT. XAMP,TOMCAT, Eclipse Software & Servers Development Visual Studio tools Technologies XAMPP,HTML5,CSS3,J Query and Bootstrap Framework https://www.visualcv.com/bharathkumar/ Project #6 VISHWAM EDU Role UI Developer Involvement An Educational application for a client to tell about their educational details (Viswam Educational Institutions) online. Viswam eduTech is a leading educational website based in India. Recently they underwent a complete design and functionality change and I was lucky enough to be a part in it. Used advanced HTML5,Bootstrap and CSS3 Responsibilities: Advanced HTML5, CSS3 For Building Web Page. Functionality Client Side Validations by Using JavaScript. Cross-browser functionalities. Event-handling, Animations with J Query. Practical Experience in Maintaining search engine optimization (SEO). Attending Client Meetings and development By their requirements. Methodology Agile Flow Of methodology System GIT.
