Full-Stack Developer Full-Stack Developer Full-Stack Developer - NORTHWESTERN MUTUAL Warrenville, IL ? Having 3+ years' experience on requirement analysis, design, development, testing, implementation, and support using Object Oriented Methodologies and Java & .NET technologies. ? Actively participated in every phase of Software Development Life cycle (SDLC) and proficient with software development methods like Agile (scrum) and Waterfall. ? Expertise in client scripting language and server scripting languages like JavaScript, JQuery, Ajax, Node.JS. ? Expert in .NET framework with strong understanding of Collections, Multithreading, Event handling, Exception handling, Generics, Entity framework and LINQ expressions. ? Utilized Java 8 features like Lambda expressions and Stream API for Bulk data operations on Collections which would increase the performance of the Application. ? Used Node.JS for Node Package Manager (NPM) and Grunt plugin for building the Projects. ? Experience in Creating and configuring the continuous delivery pipelines for deploying Micro services and lambda functions using Jenkins CI server ? Strong Experience in database design using TSQL to write Stored Procedures, Functions, Triggers, Indexers and proficiency in writing complex queries, using Oracle, DB2, SQL Server and MySQL. ? Experience in version control system tools like GIT, Gitlab and SVN. ? Experience in unit testing the applications using Nunit, JUnit, TDD Framework and RhinoMocks. ? Worked on implementing full life cycle of software development process (SDLC) in using version control tools like Tortoise SVN, CVS (Concurrent Version System). ? Hands-on experience working with Continuous Integration (CI) build-automation tools such as Maven, SVN, Gitlab, Jenkins and Apache Ant. ? Hands on experience with Windows, UNIX and Linux Environments. ? Having Experience on Shell Scripting and Deployment of Applications in Server. ? Strong Experience in Mainframe and legacy tools like COBOL, JCL, TSO/Host, CICS and IBM RDz. ? Excellent written and verbal communication skills, Analytical, Problem Solving skills, strict attention to detail and ability to work independently, lead/work within a team environment. Work Experience Full-Stack Developer NORTHWESTERN MUTUAL - Milwaukee, WI January 2019 to Present Proficiently working as a Full-Stack Developer in the Managed Investments team using Agile methodologies. Implementing two-week sprints while interacting with Product Owner, off-shore team and business people. Working on various vendor

packages such as UVT, Unity and MEDM. Changed the Unity's source code written in .NET based on company's requirement.   Developing/Maintaining double check application using Node.js and React.js. Deployed the application on Azure and migrated the data from DB2 to Azure databases. Working with Python as a scripting language to implement the daily scheduled processes. Also, converting legacy SAS programs to Python programs.   Developing function applications on Azure using JavaScript and Node.js. Working with various types of triggers such as blob trigger, timer trigger, http trigger etc.   Working with business to constantly make improvements based on client's needs. Collaborating with different teams on the Investments train to resolve support tickets and EOD (End of Day) problems.   Maintaining the legacy Mainframe programs to support the batch processes. Working with different investments team to do LPS testing to maintain the Funds applications. Software Developer QUAD/GRAPHICS - Sussex, WI February 2018 to December 2018   Actively worked as a Software developer in the IT Healthcare/Automation team developing, debugging and testing enterprise software solutions using .NET framework in an Agile environment.

   Created and maintained .NET Applications in Microsoft Visual Studio with C#, JavaScript, MVC frameworks, Oracle SQL, Entity frameworks and Microsoft Linq.   Comprehensively wrote unit tests to test code using NUnit framework and Rhino Mocks.   Worked on integration of systems of new clients with an active involvement in developing and maintaining client-server applications while on-boarding those clients to the Healthcare solution.   Worked as an automation developer configuring and creating multiple automated client reports for new clients using Microsoft SQL Server, T-SQL Stored procedures, SSRS and C#. Programmer Analyst THOMSON REUTERS - Brookfield, WI June 2017 to December 2017   Proficiently worked as a Mainframe Developer in the tax reporting team using Scrum, worked with TSO/HOST, RDz to develop, debug, maintain, and implement multiple programs into production.   Trained and worked in a Mainframe environment using COBOL, JCL, DB2, ZEKE and MQ.   Heavily contributed in the first phase of Multicurrency Global Settlement project, analyzed and developed project's initial CICS screens and online programs.   Collaborated with other teams on the Multicurrency Global Settlement project, gathered requirements, discussed workflows and brainstormed solutions for the project.   Initiated an

independent project to analyze and created a complex mapping conversion process, composed a comprehensive procedural guide for the process to be used by the developers in the future. IT Intern ARORA INFOTECH - Racine, WI June 2016 to December 2016 Professionally worked as an IT consultant, provided resources based on client's requirements. Developed strong communication skills, effectively handled clients, resolved client's issues, communicated with the client on a weekly basis. Trained in Quality Assurance and programming, wrote test cases, worked in SQL. Gained proficiency in Microsoft office and computing skills, created spreadsheets and presentations for the company. Education Bachelor of Science in Computer Science UNIVERSITY OF WISCONSIN - Milwaukee, WI Skills .net, Visual studio, Api, C#, Docker, Html, Javascript, Node.js, Jenkins, Json, Python, Svn, Xml, Database, Mysql, Oracle, Pl/sql, Sql, Cobol, Jira, Java, NET, Node, React, Nodejs, Jquery, Azure (1 year) Additional Information Technical Skills Languages C, C#, Java, Python, SQL, PL/SQL, Node.js, COBOL, JCL Mark-up/XML Technologies HTML, CSS, JavaScript, JQuery, Ajax, React.js, XML, DOM, JSON, Tools & Framework .NET, LINQ, Spring MVC, NUnit, JUnit, SOAP UI, Apache ActiveMQ. ANT, Maven Web services SOAP, Restful API Database Oracle, SQL-Server, MySQL server, Rapid SQL IDEs Eclipse, Intellij, IBM RDz, Visual Studio, Spyder Testing Tools/ Others NUnit, Junit and Jira. Version Control GitHub, Gitlab, Tortoise SVN Build Tools Ant, Maven, Jenkins, Copado, Autosys OS & Environment Windows, UNIX, Linux. Cloud Technologies Microsoft Azure, Docker
