Front End Developer Front End Developer Web Developer Candler, NC Work Experience Front End Developer aabaBot inc. February 2018 to Present aabaBot is a SaaS platform & consulting firm, that has a desire to build tools to help enterprise corporations to build products and services in the software sector much faster than standard practices. We can build web apps, api's and mobile apps in about 1/10 the time any average consulting firm can with our patented toolchain. We love to help startups and small businesses prototype their web apps quickly on average 3 minutes to build web apps they want to build by auto generating enterprise source code for the web app on top of a CRUD operation of the data which they wish to turn into a web app, and then complete the app they desire to build through a lean agile approach.   Technologies: ASP.Net MVC, .Net Core 2.2.1, Bash, git, HTML 5, CSS, Bootstrap 4,1 Front End Developer Hippokros inc February 2016 to 2018 Hippokros was a healthcare startup that used the latest .Net technologies and various API's that opened up in 2016 that allowed patients to book appointments with doctors and transferred their medical records to the doctors office all within one minute after verifying patient's identity using the last 4 digits of their social security number. At Hippokros we used Angular 3/4, TypeScript, ASP.net MVC, used Repository Design Pattern as an Enterprise Architecture, and ran the database from a MS SQL Server. The version control was git, and web framework moved from .Net to .Net Core to run on Linux.   Technologies: ASP.Net MVC, .Net Core, Angular 4, Bash, git, HTML 5, CSS, Bootstrap 4,1 RONNIE SWAFFORD 2008 to 2008 828) 776-9145 Education Computer Science UNIVERSITY OF NORTH CAROLINA - Asheville, NC Skills ASP.Net MVC .Net/.Net Core (3 years), Front End (4 years), Javascript (2 years), User Interface (3 years), Front-End (3 years), Bootstrap (2 years), HTML5 (5 years), Jquery (2 years), C# (2 years), CSS (3 years), Git (1 year), Angular, Java, Angularjs, UI
