Front- End Web Developer Front-End Web Developer Web Developer | Logically minded, creatively driven Austin, TX Web Developer with a diverse IT background. Incredibly ambitious, results driven, and fiercely passionate about building pixel-perfect, client-centric websites that are practical yet intuitive and communicate the right message. Energized by continuously learning and growing. Authorized to work in the US for any employer Work Experience Front- End Web Developer Nesco Resource February 2019 to Present 6-month, contracted assignment for Kasasa, Inc. (extended to 8-months)    Built pixel perfect, mobile-responsive websites to unique design and copy specs for financial institutions nation-wide. A few examples include:    Financial Builders: https://www.financialbuilders.org/   Community Financial Services Bank: https://www.cfsbky.com/ Montana Credit Union: https://www.montanacu.com/    All sites were built into a content management system (CMS) using JavaScript, jQuery, Twig (Templating for PHP), HTML, CSS, Bootstrap, Photoshop (comp spec matching &  graphic editing).    Managed build, launch, and support workflows and punch-lists using Jira ticketing  queues to meet all SLA's.    Frequent collaboration with designers and project managers to develop creative  solutions that often exceed the expectations of clients.    Helped migrate ~100 sites off a legacy CMS to a new, custom built CMS. This included  inspecting all site content, performing triage as needed. Front- End Web Developer Beacon Hill Staffing - Austin, TX January 2019 to January 2019 1-month, special project contracted assignment for Allen Technologies    Quickly transformed application HTML views by leveraging existing platform layouts to a modern look for the creation of a new web application. Designed to specifications  using JavaScript and jQuery for event handling and various CSS techniques.
