Software Developer Software Developer Java Software Engineer San Francisco Bay Area, CA I have 1.5 years of work experience as Javascript software engineer on several projects. Now I am trying to switch to Java/Spring stack because of my relocation to US and the fact that proprietary technology I worked with before (Hewlett Packard Service Manager 9.50) is not represented here. So, I'm currently looking for new opportunities to develop my skills at Java / Spring Boot / Hibernate. And right now I'm authorized to work and able to relocate anywhere in the US. LinkedIn account: https://www.linkedin.com/in/mikhail-vilms TECHNOLOGIES/TOOLS Java SE: Collections, Generics, Exceptions, Lambdas, JDBC; Spring Boot: Spring MVC, Spring Data JPA, Spring Data REST, RestTemplate; Testing tools: Junit, Mockito; Building tool: Maven; Version-control system: Git; IDE: IntelliJ IDEA; Databases: PostgreSQL, H2; Logging tools: Log4j, slf4j; Misc: Project Lombok; PORTFOLIO To introduce level of skills I have so far, I have prepared demonstrational project. Here is source code repo: https://github.com/Mihail-Vilms-MSU/demo-furniture-shops-manager Or you can check out deployed version here: https://mvilms-demo-shops-manager.herokuapp.com/products Authorized to work in the US for any employer Work Experience Software Developer Rostelecom - Moscow, RU November 2018 to June 2019 Designed and implemented custom module for automated email/text messages notifications. Established discussion with business and technical analysts to resolve uncertainties and confusing points in business requirements in systematic fashion Built and tested integrations with external systems via Rest API web services; During this time maintained strong collaboration with developers of those systems Software Developer AT Consulting - Moscow, RU November 2017 to November 2018 Designed, implemented and tested functionality dedicated to a business logic for ITIL change management process and approval management process flows (HPE Service Manager 9.6) according to requirements provided by technical analysts and system's chief architect Managed data in system for a correct Service Level Management (SLM) process. During that time faced difficulties with fields mapping in uploaded records. Developed tool to change mapping settings dynamically, which made process of records uploading and synchronization more convenient Junior Software Developer I-Teco - Moscow, RU February 2017 to November 2017

Performed troubleshooting, root cause analysis, and problem resolution for various functionality in HPE Service Manager 9.40   Provided support documentation to the 2nd level administration team Tested new functionality for "Request for service management" process Education Master of science in Physics Lomonosov Moscow State University 2017 Bachelor of science in Physics Lomonosov Moscow State University 2015 Skills Hibernate (1 year), Spring (1 year), MVC, RESTful API (1 year), Git (2 years), Core Java (2 years), JUnit (2 years), Mockito (1 year), Java SE (2 years), Rest, Angular, PostgresSQL (1 year), Maven (2 years) Links https://github.com/Mihail-Vilms-MSU/demo-furniture-shops-manager
