Senior UI Developer Senior UI Developer Senior UI Developer - ARRIS Group Inc Denver, CO * Over 8+ Years of IT experience as a UI Web Developer in analysis, design, development and testing of web application using HTML 4.01/5, CSS (2/3), XHTML, JavaScript, J-Query, AJAX, XML, AngularJS (2.0/4.0), D3, React.js, NODE-JS and JSON. * Proficient working in all phases of Software Development Life Cycle. * Proficient in developing web pages using HTML5, CSS3, JavaScript and jQuery and experience in making web page cross browser compatible. * Expertise in working with JavaScript frameworks like Angular JS, Node JS, backbone JS, Ember JS, Ext JS, and React JS. * Worked with React JS like text binding and writing classes using raw JavaScript and JSX files. * Developed user interface by using the React JS, Redux and React Router for SPA development. * Experienced in MEAN stack development using Mongo DB, Express, JS, Node JS, and Angular JS. * Extensive knowledge in developing single-page applications (SPAs). * Skilled at analyzing and solving browser compatibility challenges and ability to maintain consistency and well commented HTML and CSS markup. * Expertise in using Angular JS Directives, Controllers, Filters, Services, Templates, Events and Injectors. * Extensive experience in developing Rich Internet Applications (RIA) * Developed user interface by using React JS, Redux and React Router for SPA development. * Experienced in NOSQL Database design and principles (MongoDB). Proficient in designing MongoDB dynamic schemas and Data modeling concepts. * Experience in working with databases like MYSQL Server, Oracle, MS Access, Point base and JDBC. * Experience in using RESTFUL web services, Model View Control (MVC) design pattern and Test-Driven Development (TDD). * Experience with Version Control tools like CVS, GIT and SVN. * Up to date Knowledge with the latest industry trends in UI design and usability. * Strong communication, problem-solving, and planning skills, with ability to work independently or in a team environment. * Experienced in managing multiple tasks and project details. Able to work flexible hours as per business demands and up to date with current and emerging trends in new media technology. * Excellent interpersonal abilities, communication skills, time management and Team skills with an intention to work hard to attain project deadlines under stressful environments. Work Experience Senior UI Developer ARRIS Group Inc - Denver, CO January 2017 to Present Responsibilities: * Developed web pages by using

HTML5, CSS3, jQuery, JavaScript, Backbone.js, node.js, Bootstrap, Angular 2, and Angular4. * Developed user interface by using the React JS, Flux for SPA development. * Developed enhancements to Mongo DB architecture to improve performance and scalability. * Implemented react JS code to handle cross browser compatibility issues in Mozilla, IE 7, 8, 9, and Safari. * Designed Frontend with object oriented JavaScript Framework like Backbone.JS and AngularJS. * Worked on Angular 2 for Client-side validations while rendering JSON validation errors in the backend. * Developed Angular 2 Template driven forms and Model driven forms builder by using ngModel. * Developed certain features of the application functionality i.e. CRUD (Create, read, update, delete) features using Backbone.js and Responsive Design. * Developed scalable applications using the MEAN (Mongo-DB + Angular.JS 2/4 + Node.JS) stack. * Used React-Router to turn application into Single Page Application * Worked in using React JS components, Forms, Events, Keys, Router, Animations and Flux concept. * Worked on state, specs, props and events to create interactive React JS components. Implemented MVVM architecture using React and Redux framework. * Involved in creating UI components using CSS, DOJO and jQuery. * Developed dynamic responsive Web Application by integrating AngularJS with Bootstrap which is further integrated with Web Services. * Developed the backend by using Node.js, Express and MongoDB. * Used Node.js as a proxy to interact with Rest services and interacting with Database. * Worked on RESTFUL Web Services using Node.js & Express.js. * Developed multiple POCs to create an interface between Backend to Frontend by using MongoDB, Express JS, and Node.js. Environment: Java, JEE, Java Script, jQuery, Ajax, HTML5, CSS3, Angular.js 2.0/4, Spring, JSF, Jasmine, Mango DB, Node JS, React JS, Bootstrap, SQL Server, DB2, NetBeans, UML, JSP, Servlet, XML, EMC Documentum, JIRA. Sr Front End UI Developer Blackhawk Network, TX July 2015 to December 2016 Responsibilities: * Developed web applications and web portal about automation using HTML, CSS, JavaScript, jQuery, and Angular JS. * Developed RESTful web services to integrate between HRMS and Finance. * Worked with JASMINE unit test framework to write unit tests for JavaScript code. * Developed Angular 2 Services for connectivity between web application and back- end API'S using Type Script. * Developed customer facing software using

java Script / jQuery, Require.js, High charts and HTML. * Developed web pages using AngularJS, jQuery, HTML5, CSS3, Dojo, DOM, RESTful API Services, React JS, Media Query JavaScript, Node.js, Bootstrap, Kendo Grid, Jasmine and JSON. * Developed Typescript reusable components and services to consume REST API's using Component based architecture provided by angular 2. * Developed Responsive Web designs (RWD) using Media Queries and Bootstrap and worked on user interface components for different modules using Kendo UI. * Created templates, Models and directives for single page application (SPA) over Angular JS and UI framework, HTML5, CSS and Boot Strap resulting influent UI experience. * Developed REST Web services by building NodeJS server in the back- end to handle request from front- end jQuery Ajax calls. * Worked on RESTFUL Web Services to serve data to the front- end application in JSON format. * Developed single page applications using Angular JS and involved in binding data to specific view and synchronizing data with server. * Worked on Node.js, Express JS and Mongo DB to create server-side applications. Used Node JS for heavy DOM manipulation. * Developed unit testing scripts using Jasmine, JUnit for testing the JavaScript code and automate the tasks with Grunt/Gulp. Used JQuit for self-testing and JIRA for bug tracking. * Worked on AJAX for data handling with JSON, DOM and XML as data interchange formats.   Environment: HTML5, CSS3, jQuery, JavaScript, JAVA, J2EE, AJAX, Angular.js 2.0, Require.js, Node.js, React.js, Responsive Design, Bootstrap, Dom, XML, Firebug, DHTML, Adobe, Flash. Front End Developer Vaisala - Denver, CO March 2013 to May 2015 Responsibilities: * Developed rich and enhanced web pages using MVC 4.0, C#, Entity Framework, HTML, CSS and jQuery, React JS. * Worked with latest Asp. NET MVC framework on visual studio 2015. * Worked closely with business system analysts & Backend team to understand the requirements to ensure that right set of UI modules been built. * Created Responsive Web Design using Bootstrap and Media queries to support various kinds of devices. * Integrated with backend code (C#) for highly interactive AJAX based applications. * Developed data formatted web applications and deploy the script using client-side scripting. * Experience in using React JS to build web components * Used React JS to build web components such as signup form and rule form. * Developed front- end features such as displaying matches, filtering, and navigation bar using React

JS * Employed React JS library and Sass to build out a Front- End UI in a responsive layout. * Designed Prototype and project layout skeletons using React JS, jQuery and CSS/LESS and HTML. * Client-Side code were written in React JS jQuery and Server-Side Code were developed using MVC4 * Used React JS HTTP methods to retrieve task data from entity models. * Improved code reusability and created content rich Web Pages using Layouts. * Developed Task Assignment application by implementing the Single Page application template using Route Providers. * Designed the front- end applications and user interactive web pages using web technologies like Jasmine and Karma. * Developed various customized views and templates using Handlebars, JavaScript, HTML. * Worked on CSS Background, CSS Positioning, CSS Text, CSS Border, Pseudo classes, Pseudo elements etc. * Developed responsive web pages using bootstrap and CSS3 media queries. * Maintained the code base by frequent updates to the code repository using TFS. * Worked on cross browser compatibility issues and fixed the bugs that are reported in TFS. Environment: HTML5, CSS3, JavaScript, jQuery, React JS, ETS JS, JSON, AJAX, Bootstrap, Visual Studio 2015, Agile Methodology. Front End Developer ERP Logic LLC June 2011 to February 2013 Responsibilities: * Developed Rich UI application using AJAX, Backbone JS, Angular JS, Bootstrap and jQuery plugins. * Designed and implemented the User Interface using JavaScript, HTML5, XHTML, XML, CSS3, JSP and AJAX * Maintained 24/7 high volume availability using open source tools such as Linux, Apache, and MySQL. * Worked on Structured JavaScript code using Angular JS routers, forms, modules, Dom, events, expressions, controllers, filters and Http Request. * Developed Responsive User Interfaces and worked on Responsive web design pages using HTML, CSS3, JavaScript, jQuery, AJAX, Bootstrap. * Worked extensively on designing CSS based page layouts that are cross-browser compatible. * Created Responsive Designs (Mobile/Tablet/Desktop) using HTML & CSS, Bootstrap. * Worked on AJAX, JSON, and JSP for implementing dynamic Web pages where the content was fetched via API calls and updated the DOM (JSON Parsing). Environment: HTML5/HTML, CSS3/CSS, Bootstrap, JavaScript, jQuery, Angular JS, XML, JSON, JSP, Eclipse, Jasmine, Karma, Photoshop, SVN, Notepad++, Sublime. UI Developer Verizon Data Services - Tampa, FL February 2010 to April 2011 Responsibilities: * Developed presentation-tier

JSP pages in HTML, Implemented jQuery Data Grid control, Validation control, and other Widget controls. * Developed Web Services using REST and SOAP in PHP where the Restful web services were consumed using CURL and SOAP. * Developed the UI pages using HTML, DHTML, CSS, JavaScript, JSON, jQuery, Ajax. * Worked on building RESTful API's for web applications * Developed Web Services on both JavaScript and PHP for data transfer in JSON using Restful web services * Developed a project working on a JavaScript and MySQL database driven website for one of their clients involving creation of static HTML pages from JavaScript forms. * Worked on Design, UI, wire-framing, HTML, CSS, jQuery, JSP, accessibility, and optimization. * Worked on AJAX functionality for dynamic data binding for data grid, accordion, AJAX driven menu tabs using back end service calls and consumed both JSON and XML data in UI Side. * Developed different jQuery1.8 component in MVC micro architecture framework that internally used various design pattern such as singleton, command and delegate. * Worked on Front- End using JSP, HTML, Java Script, AJAX and Back- End using Hibernate ORM. * Played a vital role in defining, implementing and enforcing quality practices in the team organization to ensure internal controls, quality and compliance policies and standards. Environment: Angular JS 1.x, Java script, HTML, CSS3, JSP, jQuery, XHTML, SQL, Node.JS, Ajax, Adobe Photoshop. Education Masters in Computer Science Colorado Technical University - Denver, CO Skills AJAX (8 years), CSS (8 years), JAVASCRIPT (8 years), jQuery (8 years), JSON (8 years), Angular, UI, Front End, React Additional Information Technical Skills Web Technologies HTML/HTML5, CSS/CSS3, SASS, Bootstrap, XML, JSON, Media Queries, Responsive Web Design, CSS sprites, CSS grid. JavaScript Libraries AngularJS (2.0/4.0), Node JS, React JS, Backbone JS, TypeScript. Languages, Scripts JavaScript, jQuery, AJAX, Typescript Frameworks Bootstrap, Backbone JS, Angular JS Web Services RESTful, SOAP, XML Editors / IDE Tools Eclipse, NetBeans, Adobe Dreamweaver, Notepad++, Sublime Text, Visual studio, Angular CLI, SVN, GIT, Grunt. Database: MySQL, PL/SQL(Oracle), MongoDB Web/Application Servers Apache Tomcat, web logic. Operating System Windows, Unix/ Linux.
