SQL Database Administrator SQL Database Administrator SQL Database Administrator - Merrill Lynch Manassas, VA Authorized to work in the US for any employer Work Experience SQL Database Administrator Merrill Lynch - Hopewell, NJ December 2017 to Present SQL Server 2016/2014/2012 installations, patches and upgrades on both physical and virtual environments of production, test and development. ? Responsible for SQL Server logical and physical database design, implementation, maintenance on both Stand- alone and clustered environment. ? Managed Servers HA/DR using Clustered, Mirrored and Log Shipped, Replication, AlwaysOn. ? Automate maintenance plan jobs in SQL Server agent and task scheduler: such as backup database, index rebuilding, creating filtered indexes, index reorganizing, cleaning up, and updating statistics. ? Responsible for management and support of all application databases and environments ? Day to day support and administration of MSSQL server 2008R2, 2012, 2014 and 2016. ? Perform backup, recovery, install and manage database infrastructure, user/security management, capacity planning and performance tuning for various enterprise applications running on SQL Server ? Used Dynamic Management Views (DMV) for monitoring the performance of the server ? Ensure compliance with departmental policies, change management, IT security standards. ? Interact with various internal IT support functions, Development, Quality Assurance, Operations, and external 3rd party vendors to troubleshoot and resolve problems. ? 24 X 7 Production Database on Call Support SQL Database Administrator MetLife - Cary, NC April 2015 to December 2017 Installation, configuration and maintenance of different SQL Server versions. SQL Database Administrator Coventry Health Care Inc - Downers Grove, IL June 2013 to February 2015 Installed, Configured, and Managed SQL Server 2000, 2005, 2008, 2008 R2 in development, test, and production environment ? Applied SP (Service Pack) on SQL Server 2000, 2005, 2008 and 2008 R2 ? Configured and Maintained Database Mirroring, Replication, Log Shipping and Cluster environment ? Managed Backup/Restore, Point-in-Time Recovery including backup verification, security ? Upgraded databases from SQL Server 2000 to 2005/2008 in testing and production environment ? Expertise in database Performance tuning ? Created and managed Index, Constraints, Keys (PK, FK), T-SQL, Stored-Procedures, Triggers ? Export & Import data from Flat file, CSV to/from SQL

Server Database using DTS, SSIS, and BCP ? Setup automated jobs for different purposes including backup, monitoring database health, disk space, backup verification, moving databases from environment to environment including creating test environment ? Monitor Server Activity, Error Logs, space usage, and solving problem as needed ? Scheduled jobs to automate different database related activities SQL Profiler and Database Engine Tuning Advisor 2012 to 2014 Managed SQL instances of SQL Server 2005, 2008/2008R2, 2012 and 2014 hosting VLDB. ? Installation & configuration of multi-node SQL cluster up to 4 nodes. ? Applied latest Service Packs and Hot fixes. ? Resolved performance issues and optimization of databases using Performance Tools such SQL Profiler and Database Engine Tuning Advisor, checking Query Execution Plans. ? Implemented and administered SQL Server High Availability (Failover Clustering, DB Mirroring, Replication, Log Shipping, Always On) ? Designed database Backup & Recovery, DR planning, and Perform point in time recovery. ? Managed Database Security & access audit. ? Maintained, preformed new deployments and Troubleshoot SQL Server Reporting Services (SSRS) & SQL Server Integration Service (SSIS) packages. ? Completed data migration from Oracle/Access/Excel Sheets to all versions of SQL Server. ? Worked in OLTP and OLAP environment that includes Production, QA and development servers. ? Monitoring SQL server with third party tools Idera Diagnostic Manager, SCOM, SQL Diagnostic. ? Resolving issues reported by users in ticketing system. Education Masters of Science National University - Dhaka, BD Skills Data modeling, Database, Ms access, Sql server, Mysql Additional Information SKILLS & TECHNICAL EXPERTIES Database Servers: SQL Server 2016/2014/2012/2008 R2/2008/2005/2000, MS Access, MySQL Database Tools: Enterprise Manager, SQL Server Management Studio, SSIS, DTS, Business Intelligence Development Studio (BID), Database Mail, SQL Mail, SQL Agent Query Analyzer, SQL Profiler, Tuning Advisor, Index Tuning Wizard, Replication, Clustering, Database BCP, SQLCMD, Reporting Services, Report Manager, Reporting Services Configuration and Report Builder, Upgrade Advisor, SQL Server Configuration manager and Service manager, Client and Server Network Utilities, Idera diagnostic manager, Litespeed Backup, BMC Remedy, Microsoft service manager, Symantec Netbackup and MS Visio. Data Modeling/ Database Reporting Expertise: SQL

Server Database Diagrams, Visio, SQL Server Reporting Services (SSRS), Experienced in SQL Server Analytical Services.   ETL Tools: SSIS/DTS, BCP   Reporting/Analysis Tool: SSRS (SQL Server Reporting Services),   Data Modeling: SSDD (SQL Server Database Diagram), VISIO 2003/2007/2012   Operating Systems: Windows Server 2012R2, 2008R2, 2003, Windows 2000 server, Windows 10, Windows 7 Professional, Windows XP Professional, NT 4.0, Windows 95, and Novel Netware v5.0, VMware   Software: BMC Remedy, Idera Diagnostic Manager, LightSpeed Backup, MS Outlook
