Front End Developer Front End Developer Front End Developer Atlanta, GA Versatile front end developer, with experience designing, developing and managing complex e-commerce sites. Proven track record of creating well-executed, clean code and providing consistent customer satisfaction. Work Experience Front End Developer Supply.com - Atlanta, GA May 2018 to April 2019 GA ? Migrated large-scale e-commerce website from JS/HTML to React to create a faster site with a more maintainable codebase. ? Responsible for pixel-perfect parity between the legacy site and the new React site, in order to seamlessly transition the site for customers. ? Collaborated remotely with data, web, and proprietary-services teams at sister-company Build.com in Chico, CA to ensure the new site would feature the latest technologies using best practices. ? Implemented Build.com's proprietary CMS on Supply.com to allow marketers and merchandisers to control site content through a user portal. Taproom and Events Manager Jekyll Brewing - Alpharetta, GA December 2016 to August 2017 Lead a team of 10 employees in providing excellent customer service to patrons of the brewery's taproom. ? Audited taproom procedures and restructured inventory, staffing, and merchandising systems to prepare for passage of Georgia Beer Bill. ? Scheduled, planned, and promoted brewery events-- including the 4th Anniversary festival, the most successful festival ever held at the brewery, both in attendance and revenue. Customer Service Representative Scoutmob - Atlanta, GA November 2015 to November 2016 Fostered a culture of customer priority on a small team at a burgeoning e-commerce start-up to provide the best customer support possible. ? Personally merchandised and managed over 25,000 products for featured end caps at Target, displayed in major cities across the US. ? Lead the effort to expand the company's shipping capabilities to an international market, greatly expanding the consumer base.
