Software Developer Software Developer Software Developer - Quikstor Software & Security Winnetka, CA Innovative, passionate and workaholic computer software engineer - proficient in several programming languages and tools, offering experience in the full lifecycle software agile development process. Work Experience Software Developer Quikstor Software & Security - Van Nuys, CA September 2017 to Present Quikstor Cloud Project: Full-Stack Development in the development of new product which contains customized Rest API (ASP .Net WebApi2) and frontend web application (Angular4). System has SQL Server as a main database. * Improvement of the System Security. ? OAuth2 implementation for the WebApi2 with Owin. ? Customized end-point based authorization by system roles for Web API. ? Client-side authentication manager development with TypeScript. ? Async/Task pattern implemented / Dividing existing monolithic processes into independent parallel tasks. ? Within short time period over %100 back-end system performance improvement. Freelance Software Development & Consulting January 2017 to August 2017 Helping previous coworkers, to maintain existing projects from T&G workshop. ? API gateway and development design between client and services with GoLang. ? Design solutions for web applications and system infrastructure. Software Engineer T&G Workshop - Istanbul, TR June 2014 to December 2016 Full-Stack Software Engineer in an agile team (Scrum Master) contracted by industry Leading Companies, completed more than a dozen successful projects within three years. Projects designed as a distributed architecture and hosted on IIS.) http://www.desa.com.tr: e-commerce application for textile firm. Full - Stack Developer in a team. ? Backend Development with .Net Framework(C#), ASP .Net MVC, Entity Framework ? Frontend Development with HTML/CSS/JavaScript, JQuery framework. ? Data Storage RDMS: MS SQL Server, NoSQL: Couchbase, Search Engine: Elasticsearch ? Includes Company ERP applications integration and Multiple Banks VP integration. http://www.nationalgeographic.com.tr: CMS application for famous magazine. Responsible entire full-stack development process. ? Backend Development with .Net Framework(C#) ? Frontend Development with HTML/CSS/JavaScript, JQuery framework ? Data Storage: MS SQL Server, Search Engine: Elasticsearch, Caching: Couchbase Mem-Cache http://www.perabulvari.com: re-engineered legacy e-commerce application. Responsible for

full-stack development from beginning to deliver, co-worked with UX-engineer and another full-stack developer. ? Backend Development with .Net Framework(C#), ASP .Net MVC, Entity Framework ? Frontend Development with HTML/CSS/JavaScript, JQuery framework. ? Data Storage RDMS: MS SQL Server, NoSQL: Redis, Search Engine: Elasticsearch   https://www.depardetector.com: e-commerce application design to multi-national sales. Responsible for full-stack from beginning to deliver, co-worked with UX-engineer. ? Backend Development with .Net Framework(C#), ASP .Net MVC, Entity Framework ? Frontend Development with HTML/CSS/JavaScript, JQuery framework. ? Data Storage RDMS: MS SQL Server, NoSQL: Couchbase, Search Engine: Elasticsearch ? Includes Postal Management Integration.(Cost calculations by country and size) http://www.hepsibulut.com: IaaS based application for virtual machine renting. Responsible for analysis, design and full-stack from beginning to deliver, leading the team contains junior developers and UX-engineer. ? Backend Development with .Net Framework(C#), ASP .Net MVC, .Net Web API, Entity Framework ? Frontend Development with HTML/CSS/JavaScript, JQuery framework. ? Data Storage RDMS: MS SQL Server, NoSQL: Redis, Search Engine: Elasticsearch, Redis mem-cache ? Build on Windows Azure Pack API. http://www.rixosworld.com: e-commerce & CMS platform for amusement park called Land of Legends. Responsible for analysis, design and full-stack from beginning to deliver, leading the team contains junior developers and UX-engineer. ? Backend Development with .Net Framework(C#), ASP .Net MVC, .Net Web API, Entity Framework ? Frontend Development with HTML/CSS/JavaScript, JQuery and Bootstrap framework, Kendo UI ? Data Storage RDMS: MS SQL Server, Cache: Redis mem-cache ? Includes SKI-Data integration. VP-Integration with multiple currencies.   http://www.arzum.com.tr, http://www.arzumokka, http://www.bambistore.com.tr, http://www.limartonline.com, http://www.cosylane.com.au are the examples some other projects are successfully completed. Software Engineering Intern T&G Workshop - Istanbul, TR January 2014 to May 2014 Developed logistics system to manage distributed inventory stock for textile company DESA. (.Net)) Software Development Intern IAS - Istanbul, TR July 2012 to September 2012 Support development for CANIAS ERP software(developed with java) Education M.S. in Software Engineering in Software Engineering
