Volunteer Web Developer- Donnelly Accounting and Real Estate Volunteer Web Developer- Donnelly Accounting and Real Estate Volunteer Web Developer- Donnelly Accounting and Real Estate - LaSalle, IL Bloomington, IL I am seeking a job in the IT industry to acquire new skills, build new relationships, take on new challenges, and continue my growth as a strong, hardworking, and ambitious individual. I love meeting new people and gaining new friendships. I feel and have been told that I am a very understanding person, who can relate and get along with just about anyone. I am extremely passionate about problem solving, software development, learning new technologies, and growing as an individual. My strongest attributes are my communication skills, work ethic, and problem-solving skills. Career & Life Goals My goals in life are to finish my college education, obtain a career as a full stack developer, become a leader in my industry, and most importantly I want to inspire others and make a difference in this world before I leave. My long-term dream is to gain financial freedom, travel the world, and give back to my community.
