Interactive Manager Interactive Manager Interactive Manager - TPC Studios Tulsa, OK Work Experience Interactive Manager TPC Studios - Tulsa, OK December 2013 to Present TPC Studios is an event planning and creative agency. My role as Interactive Manager is to facilitate most digital aspects of the company's work, typically ranging from basic brochure websites to more complex function, along with solving problems and ensuring that employees have the digital tools they need to fill their roles.   - 70% of my time is focused on Front end Development, translating designs into Wordpress themes with custom javascript functionality, with a focus on responsive layout - 10% Full Stack Webdev, overseeing the upkeep of multiple LAMP/LEMP servers, custom API services, and other utility services to facilitate website and app functions. - 5% HTML email campaign design and development - 15% IT management over a small office of computers, telephony, local network, file server, RAID arrays, local and remote backups, conference room multimedia, and iOS/Android devices - Other responsibilities include occasional video editing or multimedia solutions as required.

Portfolio of my work produced at TPC Studios: http://huemanity.com/ http://alzokannualreport.com/ http://oneokar.com/   http://tpcstudios.com http://gogetterstulsa.com/ http://myneurodx.com/ http://eyeinst.com/ http://www.fredericksigns.com/ http://tuckertennis.com/ References available on request - joel@cuthriell.com - 405.582.0062 Web Developer / Graphic Designer Front End Web Development - Weatherford, OK February 2012 to November 2013 Resolution Apparel was a screen printing, web, marketing, signage, and commercial printing business. It being a small company, I grew to suit many roles: - Image conversion and conceptual design work for screen printed tees, business cards, brochures, catalogs, banners, promotional products, embroidery, and a host of odd projects   - Web design conceptualization, client communication, server management, site management, troubleshooting, and editing to internal and client websites alike, through a variety of content management systems.   - Brainstorming, troubleshooting, resolving problems, and increasing efficiency of the company's web based customer management tools. - Thinking through workflows, creating automated scripts for repetitive tasks, implementing API services to automate other tasks.   - Planning and structuring the implementation of an all-in-one online store / billing software / custom product designer / CMT.

Code Editing - SEO Consultation - Account Management - Oklahoma City, OK October 2009 to February 2012 - Directly serviced approximately 25 high maintenance, top grossing accounts among providing general support for a total client base of 11,000. - Trained more than 15 new employees with varying levels of technical skills to become proficient in triage and troubleshooting of technical issues. - Taught over 300 business owners how to implement basic SEO and social media use.
