Work Experience Software Developer EarthSoft Inc - Pensacola, FL 2016 to Present I started writing code for my business website in 2011 using PHP, mySql, and JS. I loved it so much i decided to make it my carrier. Since then I've learned a number of languages and skills with a desire to keep learning. I currently work for the world leader in environmental data management software. I've been the key contributor in developing their latest collection software called Enterprise Collect Business Owner/Operator Woodchips Chest - Logan, UT 2011 to 2016 Operator Schreiber Foods - Logan, UT 2007 to 2016 Achievements and Additional Leadership Experiences EarthSoft Inc. Served a major role in creation of new application, on both the front end and back end. Woodchips Chest Started, and ran business for 5 years. I worked with clients to fulfill orders and meet their needs. I built and maintained website from scratch using PHP and vanilla JavaScript. Created desktop Node.js application to manage inventory. The Church of Jesus Christ of Latter-day Saints Served as a missionary, volunteering two years of time. While serving in leadership positions, I coordinated

efforts of other missionaries, and resolved concerns between those for whom I was responsible
