Full resume available at https://docs.google.com/document/d/1b-YqxJgvGRmqYphXgpCdxNUsBE8l1Qb8c7zIeDMkHzQ/edit ?usp=sharing   Please visit my portfolio page at https://mgamatero.github.io/portfolio Authorized to work in the US for any employer Work Experience Front End Developer Sote July 2019 to Present Front end developer for a software logistics company servicing the trucking industry in Africa.   Develop web pages using Angular/Ionic 4.0.   Create web page Mockups and Wire ups.   Git, Agile   100% remote position.   Part of the front- end team which consists of 4 engineers. Project Specialist Philips Medical Systems 2012 to 2018 Utilized lean concepts using Kaizen methodology to analyze and improve on internal processes, reducing redundancies and expenses for Imaging Systems and PCMS Site Planning Team, consisting of 40 professionals. Created multiple software development solutions that were adopted by Site Planning. Secondary role of providing strategic and technical leadership of PCMS Site Planning Team consisting of 7 professionals.   Imaging Systems and PCMS Site Planning accomplishments   Created Plan Check Forms in MS Outlook that standardized processes across 5 modalities.   Added automations for Plan Check Forms that improved efficiency and cross modality consistency.   Implemented quality star rating system that tracked planner quality, which led to a scoring system that objectively measured planner efficiency and improvement. Star system was eventually included as a crucial metric in employee annual reviews.   Involved in new technical solution research and implementation such as Sharepoint solutions, UAT testing with new software solutions.   Presented a Virtual Reality planning solution in Las Vegas for IntraVascular Physicians (9 2017).   PCMS Site Planning accomplishments   Led the implementation, maintenance, and modification of a complex database script and archive

architecture that handled automated project check-in, check-outs, and archiving. Led to a 15% reduction in redundant drawings and a comprehensive drawing set for customers.   Acted as a liaison between 3rd party developers and PCMS department for software deployments.   Involved with Salesforce User Acceptance Testing process as legacy system transitioned to Salesforce.   Facilitated Kaizen project which led to 10% reduction of drawing error rates.   Oversaw the creation of templates for technical drawings for Philips Patient Monitoring Devices and wireless antenna designs for wireless device transport systems.   Collaborates with cross-functional teams on multiple projects including planning, modification, and training teams after tools have been deployed. Site Planner Philips Medical Systems 2007 to 2012 Provided support in all aspects of proper site planning and preparation for GXR and other large sale equipment installation.   Created technical blueprints for various Philips Radiology and Cardiovascular systems.   Consistently recognized for high quality work and exceeding drawing production quota.   Created and updated drawing symbol library which was used by entire GXR team.
