Full-Stack Web Developer (Coding Bootcamp) Full-Stack Web Developer (Coding Bootcamp) Los Angeles, CA Authorized to work in the US for any employer Work Experience Full-Stack Web Developer (Coding Bootcamp) The Plan Partner - Culver City, CA April 2018 to Present Full-stack web developer for The Plan Partner, building a subscription-based web application for real estate agents to plan their activity to realize revenue goals. Agents set up their annual business plan, including personal and business expenses, median home prices, commission splits, and desired annual revenue to arrive at the required number of transactions per year. Using industry-standard or their personal conversion rates (leads/hr and sales/lead) for various activity types (phone calls, open houses, etc.), they can allocate their time among activity types to meet their plan goals, establish a weekly schedule, track their adherence to the schedule calculate personal lead conversion rates, and manage their leads, appointments and transactions. Personally implemented the "Prospects" tab, FAQs, and the Navbar header. Created a Prospecting Tracker Component in which realtors can electronically hold themselves accountable and track their metrics. The application is implemented as a SPA/ASP.Net MVC 5.* web application backed by Microsoft SQL Server database exposed via RESTful Web API. The web client employs ReactJS and responsive web design practices for desktop, tablet and mobile devices. Employed an agile development process with daily standups and Trello for task management. Technologies include Visual Studio 2017. Visual Studio Code, SQL Server Management Studio, Git on Team Foundation Server (TFS), Chrome Developer Tools, JSON Lint, C#, Transact-SQL, MVC 5, Web Api 2.0, JSON Serialization, JavaScript, AJAX, jQuery, ReactJS, Twitter Bootstrap 4.0, CSS3, Google Maps, AWS S3, MVC Attribute Routing and Trello.
