Security Analyst Intern Security Analyst Intern IT Technician & Volunteer - Mt. Hood Community College & Local Gresham, OR 6 years' experience in Landscaping & Delivery with a reputation for providing high quality services for clients. Currently studying Cybersecurity & Networking at Mt. Hood Community College and will be finished by summer of 2019. I've demonstrated success in leadership and communication with team members on various group projects. I have practical experience in building friendly environments, so everyone is successful. Work Experience Security Analyst Intern Reynolds School District - Fairview, OR May 2019 to Present As an intern, I was assigned two major projects to complete. The first was a Penetration Test. Afterwards, a risk assessment showing the overall issues that need to either be mitigated or not. IT Technician & Volunteer Mt. Hood Community College & Local - Gresham, OR September 2017 to Present Accelerated computer startup time by 30% by killing unnecessary applications using Random Access Memory(RAM).   Implemented the latest upgraded (RAM) cards to stations making them more efficient and faster in speed overall. Upgraded RAM resulted in 50% less lag and faster startup of applications   Installed new security policy on workstations to authorize member's behaviors and manage file contents. New security policy led to the reduction of 90% of security breaches. Skipper & Jordan Nursery - Gresham, OR June 2012 to Present Landscaper & Delivery   Assisted in placing area codes for various parts of the nursery to be able to identify areas within seconds rather than minutes.   Manage and schedule plant deliveries for upward to dozens of trees per order. It would take up to 5 coworkers to be assigned different tasks to complete these deliveries.
