SQL Server Database Administrator SQL Server Database Administrator SQL Server Database Administrator - SSFCU (Credit Union) Houston, TX   EXPERIENCED IN SQL Server Administration and Design   Seasoned SQL Server database administrator with over 4 + years of Strong Experience with SQL Server 2000 through 2016 Administration   Production support in a 24/7 environment and project support.   Interacts with clients, application team and project managers to design, implement and support solutions to meet client needs   Install and Upgrade SQL Server 2008, 2012 and 2014 database standalone / cluster instances   Service packs   High Availability Solutions- Database Mirroring, Log Shipping, Always On etc.   Performance tuning and optimization   Complex database environments, Production, Test and Development Environments TECHNICAL EXPERIENCE   Translating business requirements into conceptual, logical and physical data models   Administering, Managing, Developing and configuring SQL Server database design,   Performance tuning and query Optimization   Production level support for onsite and offshore - On Call 24/7 environment   SQL Server Performance Dashboard Reports for Monitoring Performance Baselining   High Availability Solution- Clustering, AlwaysOn, Database Mirroring and Log Shipping   Disaster Recovery Strategy   Query Store, Import/Export Wizard, SSMS, SQL Profiler,   Extended   Events,   Red-Gate   tools   etc.   Replication   Models (Snapshot/Transactional/Merge)   Clustering Setup, Troubleshooting and Management   CMS Reporting-Member enrollment   Virtualization   Good T-SQL Writing skills   Temporal Tables Knowledge of SQL Azure Work Experience SQL Server Database Administrator SSFCU (Credit Union) - San Antonio, TX January 2018 to Present   Production level support for onsite and offshore Clients   System monitoring   Integrated Temporal Tables   Troubleshooting client connectivity Lock resolution   SQL Server Performance Dashboard Reports for Monitoring   Performance Baselining   Manage indexes to improve performance   Schedule jobs using SQL Server Agent Developed routine jobs for data integrity check   Code deployment into Production   Information Risk Management Control   Tables Design, views, Stored procedures, Function etc.   Managing Server and database security and identity   Managing Firewall Rule, Triger, Rowversion, Temporal Tables, Change Data Capture (CDC) etc   Column Store Index for performance   Contained

Databases   Task Automation   Indexes Maintenance   Stabilized Performance   SQL Server Profiler, Extended Events, Query Store and Database Engine Tuning Advisor(DTA) for performance   Implementation of snapshot isolation and DDL triggers   SQL Azure   Stable Replication Topology   Comprehensive Backup plan and disaster recovery strategies   Installed SQL Server 2008 on advanced servers, applied security fixes   SQL Server Upgrade   Installed and configured MS SQL Server 2008 R2, supported all Production and development servers   Maintained database response times in 24X7 Production environments   Developing SQL scripts for maintaining administration tasks   Capacity Planning and resource allocation   Monitoring standby databases to ensure high availability SQL Server Database Administrator United HealthCare - Eau Claire, WI 2016 to 2017   Installed SQL Server 2008 on windows 2003/108R2 advanced servers, applied security fixes, involved in Migrating SQL Server 2005 Servers to SQL Server 2008.   Installed and configured MS SQL Server 2008 R2, and responsible for configuration, tuning and provide support to all Production and development servers.   Maintained database response times in 24X7 Production environments, proactively generated performance reports. Automating most of the DBA Tasks and monitoring stats.   Planning and implementation of database backup/restore and disaster recovery.   Configuring and administering Database Mirroring, Log Shipping on SQL Server 2008R2/ 2012   Developing SQL scripts for maintaining administration tasks.   Running Index tuning wizard and rebuilding indexes for faster query response. SQL Server Database Administrator Vomoz Communications - Baltimore, MD 2013 to 2015   Installed, Configured, and Administered SQL Server 2014/2012/2008.   Backup databases using Full, Differential and Transactional log, Copy backup methods.   Restored Database from database backups and file backups. Experienced with Point-in-Time Recovery.   Run DBCC statements to check the physical and logical consistency of the database Inserted: the   Performed and monitored Database Backup and other jobs in using a maintenance plan Inserted: a   Monitored Server Activity, Error Log, space usage, and solving a problem as needed Inserted: a   Maintained server level, database level, and object level security best practices by creating logins and users, configuring permissions and assigning different roles to users.Inserted:,   Configured Database Mail and SQL Server Agent job.   Monitoring Database

health, Disk space, and Backup verification.Inserted:, Create index maintenance job Experienced in Creating, Modifying tables and Relationship management and Views A devoted and Quick learner with a capability to master and implement new technologiesInserted: a Inserted: A d Deleted:D Excellent presentation and documentation skills Fast learner in Company Software TOOLS: SQL Server Management Studio SQL Server Agent Microsoft Database Tuning Advisor Microsoft Visual Studio Query Analyzer SQL Profiler, Performance Monitor Extended Event Query Store Database Tuning Advisor Red-Gate toolbelt, Idera, Avamar.
