Senior Software Engineer Senior Software Engineer Senior Software Engineer - United States Specialty Sports Association Orlando, FL Work Experience Senior Software Engineer United States Specialty Sports Association - Kissimmee, FL January 2016 to Present I am responsible for the association's digital existence. I work with server managers, graphic designers, front-end & back-end developers, marketing department to maintain usssa.com and several other websites (2 million+ visitors/month). I also work closely with the board members and regional directors for planning new features and implementing new rules into the site. Management duties take 40% percent of my time; I also actively code. Senior Software Engineer & DBA Right Brain Media - Orlando, FL December 2011 to January 2016 My role in Right Brain Media was to analyze, design, coordinate, and supervise the development of software systems with excellent resolution skills, multi-tasking skills, and advising the senior management on implications of business decisions. I used ASP.Net C#, PHP, HTML5, Javascript, jQuery, jQuery Mobile, AngularJS, SQL Server, MySQL, Wowza. I was also responsible for managing the company's web, database, and streaming servers. Technical Manager Niobe Telecominication - Izmir - TR February 2008 to July 2009 I was the manager of the dev team that was responsible for the company's hosting management panel and accounting portal. Software Developer Nesa Computer - Izmir - TR September 2006 to February 2008   I designed and created B2C and B2B e-commercial sites for this computer and OEM parts distributor. I have created an integration between the e-commerce websites and the accounting software to transfer product, stock, customer records, and orders automatically between two database systems (web site's database and accounting program's database). Once the system was up and running, I extended the functionality to create 80+ copies for the resellers. I also developed various accounting reports for profit tracking and other functions for inventory management. Software Developer NiobeWeb Hosting - Izmir - TR May 2004 to September 2006 I created a hosting control panel with integration to accounting software and system administration for Microsoft Windows servers. Software Developer Sirince Tourism Travel Agency - Izmir - TR March 2002 to May 2004 I created the web portal of "The Little Hotels Book of Turkey" using ASP, JavaScript, MySql. During the two years, I had worked with a famous mathematician, Prof.Ali Nesin,

for coding to some of the system functions. altinorumcek.com 2003 to 2004 Web Developer CMF Studio - Izmir - TR June 2001 to March 2002 I created websites with various technologies within this web design studio. I was part of the team who created the first Twilio like text message service provider in Turkey. It was sold to Turkcell later. Web Developer Zara Advertising Agency - Istanbul, TR November 1999 to June 2001 I created many websites with various technologies for the agency's clients. Education Marmara University - Istanbul, TR 1998 to 2003 Faculty of Technical Education Skills VISUAL STUDIO, ARDUINO, C#, C++, Git, JAVASCRIPT, NODE.JS, TYPESCRIPT, DATABASE ADMINISTRATION, DATABASE, DATABASE DESIGN, MICROSOFT SQL SERVER, SQL SERVER, MYSQL, SQL, ASP, CSS, DOUBLECLICK, IIS, ASP.NET, Linux Additional Information COMPUTER SKILLS ASP.NET C#, Angular 2+, HTML5, JavaScript, Typescript, CSS, MySQL, Microsoft SQL Server, E-commerce, Windows Server, Linux Server (Debian & Ubuntu), IIS, Wowza, Live Streaming, Node.js, Socket.io, Visual Studio, Git, Mobile Applications, Flutter, Dart, Database Administration, T-SQL, Database Design, DoubleClick for Publishers, JW Player.
