Senior Software Developer Bayside, NY

Work Experience Senior Software Developer Time, Inc./Meredith Corporation August 2014 to February 2019 Senior Tech Lead on B2B team overseeing over 50 sites and applications ranging from internal tools to mission-critical public-facing sites. Developed greenfield products and maintained legacy code bases utilizing a multitude of tech stacks ranging from modern Javascript frameworks (Node and React) to heavy-lifting PERL scripts on the server side. Drupal/PHP Developer Penton 2012 to 2014   Back-end PHP developer   Highly successful two-year project moved 70 web properties (Examples: https://www.wealthmanagement.com, https://www.aviationweek.com) from a variety of different tech stacks ranging from .asp to flat HTML to a single Drupal codebase running all 70 applications, each with its own database. Updating codebase once updated all site.   Project contributed to significant increase (80+ percent) in digital revenues and is still generating revenue to this day. I'm very proud of this project and my role in it (Drupal module development and assistance with data migration from legacy sites to MySQL). Web Developer Harper Collins 2011 to 2012   Managed a team of offshore (India) developers on a large Drupal project.   Provided direct operational support and feature extensions on existing Wordpress sites. Web Developer KickApps/KIT Digital 2010 to 2011 Built front end of web application (HTML5 and CSS via PHP templates for ITWorld re-platform) Proprietor Evolution Media 2007 to 2011 Consulted with small (< 100 employees) and medium-sized (100-2000 employees) businesses to develop both consumer-facing and internal web applications to meet varying business needs. Developed dynamic, custom PHP web sites and services for purposes ranging from marketing campaigns to internal collaboration platforms.   Produced promotional videos including writing, direction, and editing. Education BA in Economics/Philosophy University of Colorado - Denver, CO MA in International Relations Yonsei University - Seoul, KR Skills Active directory (3 years), Apache (10+ years), Aws (6 years), Css (1 year), Databases (10+ years), Django (1 year), documentation (10+ years), Frameworks (10+ years), Freebsd (10+ years), Git (6 years), Html5 (5 years), Javascript (10+ years), Jquery (7 years), Junit (5 years), Ldap (3 years), Linux (10+ years), Mongodb (2 years), Mysql (6 years), Nginx (5 years), Php (10+ years) Links

LANGUAGES: PHP, Perl, Python, Javascript, HTML5, CSS   DATABASES and SOURCES: MySQL, MariaDB, Postgres, MongoDB, Active Directory/LDAP   FRAMEWORKS and CMSs: Laravel, Wordpress, Drupal, Django, Flask, React, Angular, JQuery   APIs: any -- just need documentation SOFTWARE: Git, GitFlow, Vim, VirtualBox, Vagrant, any Posix command line utility (sed, grep, awk, curl etc.), package managers like NPM or Composer, JUnit, PHPUnit SYSTEMS ADMINISTRATION: Linux (Debian or Red Hat-based), OSX, FreeBSD, Docker, AWS or any VPS, Nginx, Apache, Redis, Jenkins   STRENGTHS   Analyze client needs to determine project feasibility within time and budget constraints   analysis)   Coordinate with business, project managers, and other developers to deliver optimal software for the long term, considering utility and maintenance   Supervise and mentor less experienced developers   Recommend and plan testing and QA procedures   Able to clearly communicate technical concepts to non-technical people Experienced in Agile, Waterfall, or CI workflows
