Front- End Web Developer Intern Front-End Web Developer Intern Lebanon, OR Recent college graduate with experience designing, developing, and maintaining websites and web applications. Passionate about both web development and web design and actively learning new skills and improving current skill set. Authorized to work in the US for any employer Work Experience Front- End Web Developer Intern Jarvis Arms - Rexburg, ID January 2019 to April 2019   Worked independently designing, building, and maintaining e-commerce website for Jarvis Arms using WordPress. Used WordPress to put the website together, but was given the liberty of editing templates that best fit with the design choice. That included, but was not limited to, colors, typography, and user experience. Main purpose of the e-commerce website is to sell proprietary products manufactured by Jarvis Arms, but the website also includes blog posts to keep customers and future customers updated on upcoming products.   Worked closely with the owner of Jarvis Arms. Communicated regularly to make sure both parties were on the same page, as well as share input on what worked and what didn't. Alarm Operator Team Member AvantGuard Monitoring Centers - Rexburg, ID April 2018 to November 2018   Learned and used proprietary software on a daily basis to document what actions were taken with caller. Also provided a method of accountability.   Answered incoming calls from subscribers regarding their fire, burglar, and/or medical alarm device(s). Helped and answered any inquiries they had regarding their device(s). Web Developer (Senior Project) Brigham Young University-Idaho - Rexburg, ID April 2018 to July 2018   Worked in Agile setting on development of coupon automation system for school s Auxiliary Services in C# with .NET Framework, Material Design, and Angular.   Designed and developed front- end using Angular with Material Design and JavaScript and improved user experience by including front- end validation.   Worked on a 3-person team using Visual Studio Team Services (now Azure DevOps Services) to plan, organize, and push code to Git repository. Shipping Team Member Lowe's Distrbution Center - Lebanon, OR April 2015 to April 2017   Loaded trailers with conveyable and non-conveyable product either by hand or with motorized equipment, from floor to ceiling.   Quickly learned and effectively operated heavy motorized equipment to be able to perform more work assignments. Early Morning Custodian Brigham Young University-Idaho - Rexburg, ID
