Internship Internship QA analyst Olathe, KS   Having vast experience as Front End UI Developer on Cross Platform Web design and development using front- end technologies.   Strong front- end UI development skills using scripting languages like HTML5, CSS3, JavaScript, AJAX, JSON, jQuery, DOM, JSP, jQuery Plugins.   Expertise in Advanced JavaScript libraries and frameworks such as Require.JS, Angular.JS, ReactJS and enhanced JavaScript (ES5, ES6).   Extensive experience in Cross-browser HTML5, CSS3 & JavaScript coding to offer responsive website layouts to modern browsers and mobile devices.   Have an extensive experience in designing User Interface (UI) applications and professional web applications using JavaScript, Angular.JS, JSP, HTML/DHTML, DOM, XHTML, JQuery, CSS, and AJAX.   Experience in Accessible Web design and development, W3C Web Content Accessibility Guidelines.   Extensive experience on modern front- end templating frameworks for JavaScript - Including Bootstrap, JQuery, Angular.JS etc.   Expert-level knowledge of cross-browser, cross-platform compatibility and design constraints and Google analytics.   Worked on CSS Media Queries, CSS positioning, CSS Transitions, CSS border, CSS margin, CSS padding, CSS table, CSS Animation, Universal, Child, and Adjacent Selectors in CSS, Pseudo classes, Pseudo elements and CSS behaviours in CSS.   Good Experience in working with testing tools like Selenium, Firebug, Fire Path, web inspectors and Developer Toolbar.   Adapted Model-View-Controller (MVC) frameworks for developing web applications.   Experience applying the latest software development approaches including MVC, AJAX, Object Oriented (OO) JavaScript, JSON and XML.   Experience working on scalable environment in Agile/SCRUM methodologies. Prepare Test Cases using TDD (test driven development) and BDD (behaviour driven development) approach on multiple platforms like Linux, UNIX, Mac and Windows. Work Experience Internship Deemsys INC May 2017 to August 2017 Responsibilities: Participated in requirements gathering and analysis. Developed the various screens and its architecture in accordance to UI Specs, worked extensively with HTML5, CSS3/SASS and JavaScript code to build dynamic pages   Re-designing/developing the main website to improve user experience and add new functionality.   Developed all the UI pages using AngularJs, HTML, XHTML, DOM, CSS3, JSON, JavaScript, jQuery, Ajax, Bootstrap.   Created forms to collect and validate data from the

user in HTML and JavaScript. Designed, prototyped and wrote coding standards for full WCAG 2.0 compliant websites and applications. Developed IFRAME element to fetch and display the external pages that contains JavaScript/CSS code that runs when fetched via Ajax, the page is from an outside domain. Fixed issue related to that. Used JQuery to traverse through a DOM tree and manipulated the nodes in the tree. Implemented the Drag and Drop functionality using jQuery framework. Development environment included HTML5, CSS3, AngularJs, Java RESTful Web Services and d3.js/c3.js data driven charting library. Worked on Angular Materials, rendering using components which contains additional components called custom HTML tags. Used JQuery plug-ins for Drag-and-Drop, Widgets, Menus, User Interface and Forms. Developed single page web application using JavaScript framework Angular.JS. Developed Date Time Picker using Object Oriented JavaScript extensively. Conducted unit testing with Firebug, IE Tester and end-to-end testing on the supported browsers and devices. Used the responsive utilities of the Bootstrap frameworks to facilitate the design displaying properly on different devices. Debug the application using Firebug to traverse the documents and manipulated the Nodes using DOM and DOM Functions. Responsible for the overall layout design that meet cross-device compatibility using Bootstrap, color scheme of the web site using HTML5, and CSS3. Developed the administrative UI using AngularJs forms and directives Implemented an auto mode where the JavaScript automatically cycles through and also selects each tab periodically until a tab is explicitly selected. Environment: HTML5, DHTML, XHTML, CSS3, JavaScript, JQuery, AJAX, XML, JSON, Angular.JS, D3 JS, Bootstrap, MS Office, Dreamweaver CS5, Eclipse IDE, Windows. Front End/UI Developer Alliance Pro Pvt Ltd - Hyderabad, Telangana February 2012 to July 2013 Responsibilities: Implemented client side Interface using AngularJs. Developed various screens for the front end using AngularJs and used various predefined components from NPM (Node Package Manager. Captured the details and specifics of the website design via storyboards for prototyping. Developed the UI with extensive use of AngularJs framework that helped to organize the code. Part of a team that would plan, develop and create Mobile applications to match the needs of industrial clients. Worked on integrating backend RESTful service calls with Bootstrap components

by fetching the data using AngularJs and displaying it within various Bootstrap based components. Performed other related tasks under the instructions of a senior Java programmer.   Used JSON for data transfer between front end and back end.   Wrote application level code to perform functionality using JQUERY and JavaScript.   Designed the employee front end applications, User Interactive (UI) web pages using web technologies like HTML5, XHTML, and CSS3.   Developed web pages using Forms, Components, Layouts, Events, Validations, Grids components. Developed single page applications (SPA) using AngularJs.   Designed custom Node.js module to, programmatically generate a path for a RESTful endpoint (CRUD) with back end, provided a schema.   Using advanced level of JQUERY, AJAX, JavaScript, CSS3 and pure CSS layouts. Hands on web application security that deals specifically with security of websites, web applications and web services. At a high level, Web application security draws on the principles of application security.   Environment: HTML 5, CSS 3, Java Script, JQuery, Node.js, AngularJs, Bootstrap, AJAX, Agile methodology, Eclipses, MySQL, RestFul, Windows. Front End/UI Developer Fifth Elementz - IN July 2011 to February 2012 Responsibilities: Involved in Requirements and Analysis Understanding the requirements of the client and the flow of the application as well as the application Framework.   Developed the UI Screens using HTML, DHTML, XML, Java Scripts, Ajax, JQuery Custom-tags, JSTL DOM Layout and CSS..   Designed dynamic client-side JavaScript codes to build web forms and simulate process for web application, page navigation and form validation.   Worked on integrating backend RESTful service calls with Bootstrap components by fetching the data using AngularJs and displaying it within various Bootstrap based components. Used JSON for data transfer between front end and back end.   Wrote application level code to perform functionality using JQUERY and JavaScript.   Designed the employee front end applications, User Interactive (UI) web pages using web technologies like HTML5, XHTML, and CSS3.   Using advanced level of JQUERY, AJAX, JavaScript, CSS3 and pure CSS layouts. Hands on web application security that deals specifically with security of websites, web applications and web services. At a high level, Web application security draws on the principles of application security.   Environment: HTML 5, CSS 3, Java Script, JQuery, Bootstrap, AJAX, Agile methodology,

Eclipse, RestFul, Windows. Education Masters in Computer Science University of Central Missouri Skills AJAX (2 years), ANGULARJS (2 years), BOOTSTRAP (2 years), CSS (2 years), HTML (2 years) Additional Information Technical Skills: Web Technologies HTML 4/5, DHTML, CSS, CSS3, JavaScript, JQuery, AngularJS, Angular Materials, Handlebars.js, AJAX, JSON, XHTML, SASS Libraries Bootstrap, RequiredJS, Angular JS, D3.JS, Node.JS. Other Tools Photoshop, MS Office, Firebug, Chrome Developers tools   Content Management Drupal7, WordPress   Server Side Scripting C# IDE's VS Studio Databases MYSQL, ORACLE   Operating Systems Linux, Windows (98/2000/XP/Vista/7), Mac
