SR. WEB/UI DEVELOPER SR.WEB/UI DEVELOPER SR. WEB/UI DEVELOPER - FABEC IT Hamilton, NJ   10 years of experience in analysis, design, development, testing and implementations of client/server, web based applications using Front End/User Interface (UI) Technologies like using HTML, CSS, DHTML, JavaScript, Bootstrap Framework, AJAX, JSON, Java technologies and XML.   Expertise in developing front-end of the applications using JavaScript, Bootstrap, CSS, XML, HTML, Flex 3.0 and AngularJS 1.2.2.   Extensive experience in Angular JS in order to create single web page applications, streaming servers.   Has excellent knowledge of Java, J2EE/JEE platforms in building applications integrated with RESTful services. Developed a core component of Analytics with Angular.JS   Designed Frontend with in object oriented JavaScript Framework like Angular.JS   Authored REST based Web API wrappers to integrate with conventional Web Services.   Expertise in implementing the business rules in different layers like UI, services and backend database.   Expertise in coding optimized SQL queries, PL/SQL Stored Procedures, Functions, Packages and Triggers on databases like MySQL, SQL Server and Oracle.   Excellent working knowledge in Core Java, JDBC, and Web Services for Enterprise projects.   Experience in working with third party web services APIs   Good Expertise in analyzing the Document Object Model (DOM) Layout, DOM Functions, Java Script functions, Cascading Styles across cross-browser.   Expertise in object oriented JavaScript Libraries including Various Plug-Ins like   AngularJS.   Experience working with Agile(Kanban) and waterfall development   Methodologies.   Extensive Experience in building enterprise Applications and Distributed Systems.   Significant experience in web development tools like Text Notepad++ and Adobe   Dreamweaver.   Strong debugging skills and thorough understanding of cross browser issues.   Expertise in using source code control systems and Agile project tracking systems like JIRA.   Excellent technical, analytical, problem solving skills, attention to detail and ability to work independently as well as work within a team environment.   Good communication skills and the ability to effectively communicate with all levels of the organization such as technical, management and customers. Authorized to work in the US for any employer Work Experience SR. WEB/UI DEVELOPER FABEC IT April 2017 to Present Clients: Fabec IT Technologies: AngularJS, HTML,

CSS, JavaScript. Projects: ZeroFriction IT Responsibilities: Creating custom UI for a multi-tenant platform of Fabec IT. SR. WEB/UI DEVELOPER TATA ELXSI March 2011 to February 2017 Clients: Motorola, Polycom, Toshiba, Jaguar (Land Rover), Carenection Technologies: AngularJS, Java, MySql, GLStudio, Rhapsody, C++, HTML, CSS, JavaScript, Flex AJAX, DOM, Firebug, RESTful services, XML, Windows. Projects: INSIGHT, JLR, GAPFILLER_EMS, RPMF, Wing, Hawking Responsibilities: Designed NANO website using Flex & Action Script. Worked for Jaguar & Land Rover (JLR) using GL Studio and automotive infotainment system. Involved in AGILE Methodology process which includes bi-weekly sprint and daily scrum to discuss the design and work progress. Implemented login page using HTML, CSS, Angular JS, AJAX and JSON. Created Responsive Layouts for multiple devices and platforms. Using advanced level of Angular JS, DOM, AJAX, JavaScript, CSS and pure CSS layouts. Implemented form validations across the site using JavaScript. Extensive experience of Object Oriented JavaScript design pattern and JavaScript MVC Patterns Preferably Angular JS for building UI Widgets and Application logic. Created forms to collect and validate data from the user in HTML and JavaScript. Created components like Grid, Panels, Toolbars, button and Combo-box etc. Designed the application framework, selects the software and hardware platforms and determines the site navigation. Developed HTML, JSP, Business Logic Classes, Action and Form classes, Java Scripts and SQLs for database access. Using Angular JS created custom directives for data manipulations and to display data in company standard format in UI. Used Angular JS for data-binding. Used $http with AngularJS interceptors to make sure the requests were valid and used ui-router to handle nested views and avoid page redirection. Implemented responsive web design using bootstrap. Worked closely with back-end developers to find ways to push the limits of existing Web technology in service of creating the best possible user experience. Writing responsive code using bootstrap classes. Responsible for checking cross browser compatibility and hence worked on different browsers like safari, Internet explorer, Firefox and Google chrome. Used front end technologies such HTML, CSS, Bootstrap, Java Script, AJAX, JSP and AngularJS. Worked one-on-one with client to develop layout, color scheme and layout and implemented it into a final interface design

with the HTML/CSS, Bootstrap and JavaScript. Analyzed code and fixed bugs. Worked on the UI Framework like JS, Bootstrap. Use JS framework such as Angular JS (for data driven apps). Involved in peer-to-peer code reviews and functional testing. Integrated the Java code (API) in JSP Pages. Debug the application using Firebug to traverse the documents and manipulated the Nodes using DOM and DOM Functions using Firefox and IE Developer Tool bar for IE. Involved in developing HTML and JavaScript for client side presentation and data validation on the client side with in the forms. Involved in writing SQL Queries, Stored Procedures. Used tracking tools as JIRA for bug tracking. SR. WEB/UI DEVELOPER MINDTREE October 2010 to March 2011 Technologies: Flex, CSS, MS SQL, Java Projects: Mockup UI / Axure (Wireframe) Responsibilities: Designed mockup screens using flex for multiple projects. Designed User Screens with Flash & Action Script. FRONT-END DEVELOPER PHOTON INFOTECH November 2009 to October 2010 Clients: Johnson & Johnson Technologies: Flex, Action Script, MS Share Point, MySQL Projects: MyJNJ, SSBT, Social Media Framework Responsibilities: Involved in AGILE Methodology process which includes bi-weekly sprint and daily scrum to discuss the design and work progress Designed User Screens with Flex & Action Script. Bug Fixing and enhancements. Used Cairngorm Framework. Responsible for Integration of modules. Worked on the UI Framework like Flex and Action Script. Implemented login page using Flex and Action Script. Implemented form validations across the site using Action Script. Created custom components like Grid, Panels, Toolbars, button and Combo-box etc. Used tracking tools as JIRA for bug tracking. WEB DEVELOPER NETPIXEL March 2007 to October 2009 Clients: Netpixel Technologies: Flex, Action Script, Java, Remote Services, SQL Server Projects: HRAS, QAMS, SkillSharp Responsibilities: Designed User Screens with Flex & Action Script. Bug fixes and enhancements. Used Cairngorm Framework. Responsible for Integration of modules. Worked on the UI Framework like Flex and Action Script. Implemented login page using Flex and Action Script. Implemented form validations across the site using Action Script. Created custom components like Grid, Panels, Toolbars, button and Combo-box etc. Used tracking tools as JIRA for bug tracking. Education Master of Computer Application in Computer Application S.V University Skills Java (9 years), MySql

(6 years), SQL (9 years), UI (10+ years), USER INTERFACE (10+ years) Additional Information Technical Skills: HTML, DHTML, XHTML, XML, JavaScript, AJAX, JSON, CSS, Web Technologies Bootstrap, AngularJS, JSON, Ajax UI Concept Modeling Web/App Servers Apache Tomcat, JBoss Languages C, C++, Java, J2EE/JEE Methodologies Agile(Kanban), Waterfall Version Control SVN, CVS, Clear Case, Clear Quest IDE/ Tools Eclipse, , NetBeans, Flex, GLStudio and Dreamweaver Firebug, Firebug Lite, Google Chrome Web Debugger, IE Debugging Tools developer Tools. Database MySQL, Oracle, MS-Access, SQL 2000/2005 Operating System Windows 8/ 7/XP/Vista/2000, Mac, Linux, UNIX.
