Front End / Tech Lead Front End / Tech Lead Front End / Tech Lead - Halliburton Houston, TX
Over 12+ years of extensive experience in IT Industry Developing, Managing, Leading, Implementing the web based applications and UI applications.    Extensive experience in all phases of Software Development Life Cycle (SDLC) including identification of business needs and requirements gathering, architecture, UI Design, implementation, testing, deployment and maintenance.    Experienced in developing applications using HTML5, CSS3, JavaScript, Angular 2/5/7/1.2, Typescript, Ext.js, JQuery, AJAX, XUI, JSP, node and ATG.    Knowledge in UI development, UX design, development, documentation, media (screen, mobile, touch interface) compatibilities, application architecture, wireframes, project and team management.    Expert in HTML5/CSS3 development and have experience in Angular, Bootstrap, Responsive Web design. Skillful in Angular Features like creating custom Directives, Pipes, Dependency Injection, Modules and expertise in implementing Lazy Loading and Routing.    Explored new features and gained good knowledge in Angular 1.2/2/5/7.    Expertise in developing Responsive Web Design, REST Service Application with Reusable Code and High Quality & Performance using suitable Front End Technologies.    Sound Understanding and good Experience with Object Oriented Programming Concepts, Object Oriented JavaScript and Implementation.    Expertise in using frameworks like CSS blueprint and used CSS Sprites to increase the efficiency of web pages.    Extensive Knowledge in CSS2/CSS3, and SASS.    Professional in creating Templates, Mockups and Prototypes, Web Interfaces, Layouts and Flow of Future Pages.    Significant experience in web design tools like Photoshop and Adobe XD.    Experience with versioning tools like Tortoise SVN and GIT.    Experienced in AGILE based development environment and participating in Scrum sessions.    Excellent Technical, Analytical, Problem Solving skills, strict attention to detail and ability to work independently, work within a team environment.    Excellent communication skills, interpersonal, strong architectural skills, hardworking and a very good team player and ability to effectively communicate with all levels of the organization such as technical, management and customers. Work Experience Front End / Tech Lead Halliburton - Houston, TX January 2019 to Present Responsibilities:    Gathered and analyzed the requirements and converted them into User

Requirement Specifications and Functional Requirement Specifications for the designers and developers to understand them as per their perspective.    Leading 7 Members team and involved in understanding problem statement and giving solution, code review and offshore Coordination Responsible for project Estimation, SOW and PO    Developed the UI Screens using HTML5, CSS3, Angular 7, TsLint, JSdoc and QUNIT    Responsible for the overall layout design, color scheme of the web site using HTML5, CSS3 and Responsible for creating detailed wire frames and process flows.    Developed client side Angular 7 services to implement custom business logic for reusable components.    Written Typescript classes to construct Angular 7 Components.    Used Angular 7 features such as lazy loading module and resolve guard to deliver better performance and user experience.    Interacting with offshore lead for application development and planning the task and derive the output    Created and developed the web-page layout and positioned/developed design elements, using Adobe Photoshop and Adobe XD.    Used various libraries of JavaScript like JQuery.    Developing CSS Style for web pages using SASS and Bootstrap.    Developed the Responsive design to make the portal compatible with Mobile/Tablets/PCs/MAC by defining media queries.    Designed dynamic client-side JavaScript codes to build web forms and simulate process for web application, page navigation and form validation.    Extensively worked with making calls to APIs to fetch the data from the backend as JSON response and parse it on the UI for DOM/CSS Manipulation.    Developing front end screens to be cross-browse & cross-platform.    Co-ordinate with QA for testing, Production releases, Application deployment and integration.    Worked with the team of architects and back- end Developers to gather requirements and enhance the application functionality and add new features.    Environment: HTML5, SASS, CSS3, JQuery, AJAX, GIT, JIRA, TFS, NPM, JavaScript, Responsive Web Design, Angular 7, TypeScript, Node.js, JSON, REST and Windows. Front End / Tech Lead Ericsson - Santa Clara, CA November 2017 to December 2018 Responsibilities:    Extensively involved in requirements gathering and analyzing them, checking the dependencies and design of the project.    Responsible for project Estimation, SOW and PO    Involved in Video Streaming and broadcasting.    Developed UI using HTML5, CSS3, Angular 5, Bootstrap, GIT, NPM, JIRA, JQuery, and JSP for interactive cross browser

functionality and complex user interface. Leading 30+ Members team and involved in understanding problem statement and giving solution, code review and offshore Coordination Created and optimized graphic prototype websites and applications interfaces using HTML5 and CSS3. Proficiency in implementing the design to meet web standards (W3C), SEO and worked on various browsers for cross-browser implementation. Integrate the application with the business layer utilizing Angular routing for navigation and services to consume RESTful API's and to communicate between components using Dependency injection provided by Angular 5. Interacted with Restful Web services using Angular 5 Http Module. Designed Responsive Web Design websites optimized for different displays. Created functional specifications with visual design mockups in Adobe Photoshop, Adobe XD. Used Visual Studio Code as HTML Editor for designing new pages. Designed DOM based interactive to reprogram selected links and adopted WCAG standards for HTML and XHTML and W3C standards for CSS as well. Co-ordinate with QA for testing, Production releases, Application deployment and integration. Used CSS frameworks and pre-processing platforms (SASS & LESS). Environment: HTML5, CSS3, SASS, LESS, AJAX, JQuery, JavaScript, XHTML, JSON, GIT, TFS, JIRA, NPM, Responsive Web Design, bootstrap, Angular 5, Node.js, Photoshop, W3C and Windows. Front End / Tech Lead Thales - San Jose, CA July 2013 to October 2017 Responsibilities: Involved in the designing, development and testing of the application. Involved in Project Estimation Interacted with Restful Web services using Angular 5 Http Module. Involved in developing HTML and JavaScript for client side presentation and, data validation on the client side with in the forms. Involved in developing the UI pages using HTML, CSS, JavaScript, Angular1.2 / Angular 2, REST Interface, JSON, JQuery. Used CSS frameworks and pre-processing platforms (SASS & LESS). Responsible to frontend Architecture Checking cross browser compatibility and accessibility Involved modules like canvas wiring diagram, Seat Arrangement, SVDU Device placement Environment: HTML, CSS, Javascript, AJAX, JQuery, MVC, Angular.js, Angular 2, TypeScript, GIT, JIRA, NPM and SASS. Front End / Senior Software Developer Iron Mountain October 2012 to July 2013 Responsibilities: Involved in the designing, development and testing of the application. Development of Prototype Checking

Cross browser compatibility and Accessibility. Involved in developing HTML and JavaScript for client side presentation and, data validation on the client side with in the forms. Involved in developing the UI pages using HTML, CSS, JavaScript, ExtJS, REST Interface, JSON, JQuery Involved in Code review and release notes Environment: HTML, CSS, Javascript, AJAX, JQuery, Extjs, SVN, and JIRA. Front End / Senior Software Developer WELLS FARGO February 2012 to June 2012 Responsibilities: Development of Prototype using HTML, CSS, Javascript, JQUERY Converting table layout to table less layout Performance optimization using image sprite, removing Inline styling, reusable components Involved in Search Engine Optimization (SEO) Checking Cross browser compatibility. Involved in developing HTML and JavaScript for client side presentation and, data validation on the client side with in the forms. Involved in developing the UI pages using HTML, CSS, JavaScript, AJAX, JSON and JQuery Involved in Code review and release notes Environment: HTML, CSS, Javascript, JQUERY, AJAX, SVN, and JIRA. Front End / Web Designer CVS Pharmacy June 2011 to December 2011 Responsibilities: Development of Prototype using HTML, CSS, Javascript, JQUERY Handled UI / UX Team Members Converting table layout to table less layout Checking cross browser compatibility Integrating HTML pages to ATG framework Create Mobile, Tablet and Desktop version of website Create visual design as per client requirement Create sprite sheet Environment: HTML, CSS, Javascript, JQUERY, AJAX, SVN, Photoshop and ATG. Front End / Software Developer Daily Tribune January 2009 to June 2011 Responsibilities: Development of Prototype using HTML, CSS, Javascript, JQUERY Develop table less layout Checking cross browser compatibility Integrating HTML pages to PHP framework Create Mobile, Tablet and Desktop version of website Create sprite sheet Environment: HTML, CSS, Javascript, JQUERY, AJAX, SVN, Photoshop and PHP. Front End / Software Developer San John's Hospital April 2007 to December 2009 Responsibilities: Development of Prototype using HTML, CSS, Javascript Develop table less layout Checking cross browser compatibility Integrating HTML pages to JSP framework Create sprite sheet Environment: HTML, CSS, Javascript, SVN, Photoshop and JSP. Skills Ajax (10+ years), Javascript (10+ years), Jquery. (10+ years), Photoshop (7 years), Subversion (6 years) Additional Information

Technical Skills:     JavaScript Libraries Angular.js, Angular 2/4/5/6,PureMVC, Bootstrap, JQuery, Ext.JS (4.0), Node.js  Web Technologies HTML4/5, CSS2/3, JavaScript, JQuery, AJAX, Typescript, Responsive Web Design, DOM, SASS  IDE & Tools Visual Studio Code, Eclipse, TFS, Notepad++, Adobe Dreamweaver, Adobe XD, Photoshop.  Version Control SVN, GIT.     Methodologies Agile, Waterfall  Data Base SQL.    Operating Systems Windows, and Linux.
