PHP Web Services Programmer PHP Web Services Programmer Software Developer Hayward, CA

I m a recent Computer Science grad with almost 2 years of experience as a Software Developer at DXC Technology, and 3 months of volunteer internship experience as PHP Web Services Programmer at MaintStar.   Agile and Waterfall model Experience. Vast knowledge of Data-structures and Algorithms.   I am someone who takes responsibility for their actions and when things go wrong I don t look to outside forces to blame. Rather, I logically analyze what happened, how the situation could have been handled more effectively and determine how to prevent the mishap from going forward.   Reach out to me on my email or phone: ksodha93@gmail.com or +1 (657)445-8893. Sponsorship required to work in the US Work Experience PHP Web Services Programmer MaintStar - Irvine, CA June 2018 to September 2018   Studied the existing PHP Web Services, as needed. Created new PHP Web Services using REST API.   Created new Unit Tests, using curl. Executed the tests to debug the web services.   Utilized standard utilities which help in creating web services. Proposed new Web Services as the need arises.
